[4] Workload for each of the 2nd, 3rd, and 4th option years is approximately equal to the 1st option year's workload.
[5] The "Workload Indicator" column is to inform the reader that the workload quantities are expressed in unit numbers.
[6] In some cases, the SP will be required to process classified correspondence.
[7] In some cases, the SP will be required to process classified incoming naval messages.
[8] In some cases, the SP will be required to process classified outgoing naval messages.
