GENTEXT/REMARKS/THIS INTERIM CHANGE UPDATES AMMT INSPECTION

FREQUENCY/PERIODICITY.

UPDATE CHAPTER 2, PARA 2.1.3.2.1.3 TO READ AS FOLLOWS:

QUOTE 2.1.3.2.1.3 INSPECTION FREQUENCY/PERIODICITY WILL BE SCHEDULED, COORDINATED, AND CONDUCTED BY THE TYCOM IN A MANNER THAT CONSIDERS OPERATIONAL SCHEDULES. AMIS SHALL BE SCHEDULED USING THE FOLLOWING CRITERIA:

A. USMC DEPLOYABLE SQUADRONS, AVIATION UNITS THAT DEPLOY DETACHMENTS, PERMANENTLY FORWARD DEPLOYED UNITS, AND MALS, SHALL RECEIVE AN AMI AT A 24 MONTH INTERVAL NOT TO EXCEED 30 MONTHS. AMI SHOULD BE CONDUCTED PRIOR TO DEPLOYMENT IN THE EVENT THAT 30 MONTH INTERVAL WOULD BE EXCEEDED.

B. USN DEPLOYABLE SQUADRONS, AVIATION UNITS THAT DEPLOY DETACHMENTS (I.E. HSL, HSM, VR, VRC, ETC), PERMANENTLY FORWARD DEPLOYED UNITS, PERMANENT FORWARD DETACHMENT SITES, AND CVN/L-CLASS SHIPS SHOULD RECEIVE AN AMI AT A 24 MONTH INTERVAL NOT TO EXCEED 30 MONTHS. AMI SHOULD BE CONDUCTED 3-6 MONTHS PRIOR TO MAJOR DEPLOYMENT.

C. NON-DEPLOYING SQUADRONS/UNITS (TRAWING, FRS, HMX, NSAWC, VX, VFC, ETC.) AND COMFRC ACTIVITIES SHALL RECEIVE AN AMI AT A 30-MONTH INTERVAL NOT TO EXCEED 36 MONTHS. THE TYPE WING/MAW WILL PERFORM AN MPA VISIT ALTERNATING FROM TYCOM AMI AT 15-18 MONTHS.

D. IN ORDER TO MEET DEPLOYMENT SCHEDULES OR OPERATIONAL COMMITMENTS, TYCOM MAY DIRECT TYPE WING/MAW TO CONDUCT A MAINTENANCE PROGRAM PROFICIENCY EVALUATION (MPPE) IN LIEU OF AN AMI. MPPE RESULTS WILL BE FORWARDED TO THE APPROPRIATE TYCOM WITHIN 30 DAYS, TO DETERMINE IF THE RESULTS MAY BE USED TO EXTEND A AMI DUE DATE UP TO 12 MONTHS.

NOTES:

(1) UNIT MPA VISITS SHALL BE PROVIDED BY TYPE WING/MAW. MPA SHOULD BE PERFORMED BETWEEN TWO AND FOUR MONTHS PRIOR TO AMI.

(2) LOW-DENSITY HIGH-DWELL UNITS SCHEDULED FOR REPETITIVE DEPLOYMENTS WITH SHORT HOME CYCLE TURNAROUNDS MAY SEPARATE MPA VISIT AND AMI SO THAT INSPECTIONS ALTERNATE AROUND SUCCESSIVE DEPLOYMENTS.

(3) CVN/L-CLASS SHIPS, AND UNITS WITHOUT TYPE WING/MAW, MAY REQUEST TYCOM MPA VISITS. CVN/L-CLASS SHIP MPA WILL BE CONDUCTED 2-4 MONTHS PRIOR TO THE SCHEDULED AMI.

(4). NEWLY COMMISSIONED CVN/L-CLASS SHIPS, POST-REFUELING, AND COMPLEX OVERHAUL CVNS WILL BE PROVIDED MPA VISITS.

(5) USMC SQUADRONS DEPLOYING WITH NAVY CVW WILL ADHERE TO USN DEPLOYABLE SQUADRON GUIDELINES.// BT
