

IPM101 "Framing EVM for IPTs" and IMS101 "Fundamentals of Project Schedule Management"

The following courses are being offered at the Frank Knox building in August:

IPM101 - "Framing EVM for IPTs" on 20 August from 0800 to 1600.

This course will provide an overview of Earned Value Management within the NAVAIR Acquisition environment. The NAVAIR professional will learn how Earned Value Management overlaps robust project management practices and provides valuable insight into understanding cost, schedule and technical status. They will learn when EVM is required on a program, and its value in providing a structure supporting management decision and action. This course is appropriate for all experience levels within NAVAIR. This is a one day course.

IMS101 - "Fundamentals of Project Schedule Management" on 21 August from 0800 to 1600.

This is a course targeted at the acquisition professional that needs basic information about planning and managing with project schedules as it pertains to an acquisition program. This course is appropriate for those who work within a program office or competency and need to be able to interpret schedule derived data and information from their contractors and schedule analyst. This course is also appropriate as an introductory course for schedule analysts and in-house schedulers. This course will not provide any hands on skills in Microsoft Project or other scheduling tools. This is a one day course with a prerequisite course of IPM101 Framing Earned Value Management for IPTs.
