<https://maps.google.com/maps?ie=UTF8&cid=6634761825212042739&q=Andromeda+Systems&iwloc=A&gl=US&hl=en>

Course Instructor: Andromeda Systems Inc.

Cost: No Cost.

Contractor personnel directly supporting DIMP processes are welcome to attend.

**COURSE DESCRIPTION:** This course focuses on providing Life Cycle Logisticians with an overview of the Maintenance Task Analysis (MTA) methodology. Its intent is to prepare these participants with the basic principles and fundamentals required to allow them to effectively participate and provide input into a MTA process and identify resource requirements that result from this analysis.

**COURSE LENGTH:** 3 days

### TARGET AUDIENCE:

6.7 Design Interface & Maintenance Planning Personnel

6.6 Product Support Managers, Assistant Program Managers for Logistics, Deputy Assistant Program Managers for Logistics

Anyone who performs maintenance planning or implements a maintenance plan

Anyone who reviews a maintenance plan or accepts a maintenance plan from a contractor

Prerequisite for  
enrolling into MTA.doc
