TRAINING ANNOUNCEMENT

Supportability Analysis Training Course (MIL-STD-1388-2B, LMI, GEIA-STD-0007)

Dates: 18 - 22 August 2014
Time: 0800 to 1600
Location: Local PAX Area
Instructor: Integrated Support Systems Inc.
Cost: No Cost

Course Description:

This course provides fundamental insight into the Product Support Analysis (PSA) process. It focuses on the primary current standards that serve as the basis for many LSA programs - GEIA-STD-0007, MIL-STD-1388-2B, and LMI. Additionally, it examines the role of the analysis in PBL and spiral programs. The focus of the course is to provide you the necessary insight to produce the appropriate support system for your program.

General Information:

The Supportability Analysis (MIL-STD-1388-2B, LMI, GEIA-STD-0007) course provides the foundation for Logistics Product Data (LPD) attribute selection and management.

Registration and Inquiries:

For registration , please E-mail AMC Thomas Morris (thomas.j.morris1@navy.mil) at 301-342-5477 on your email **include your Program, Title, Code, Phone number, and a brief sentence of how this course applies to you.** **Registration Inputs due by COB Friday August 1, 2014.**

Contractor personnel directly supporting DIMP processes are welcome to attend.
