DATE SUBMITTED: 28 JUL 98

SUBMITTED BY: MALS-11

PROBLEM:

The new CC-03, Command and Control Mobile Facility (MF), for T-AVB needs a support MF, to accommodate large quantities of equipment, to elevate the CC-03 above activity level giving clearer views to operations, and keep troop traffic into the MF to a minimum.

RECOMMENDATION:

Take a current active MF that is in an excess status, add a few minor cabinets and/or shelving, supply it with an excess set of scaffolding, and keep it married-up with the CC-03.
