

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 2-170

DATE SUBMITTED: 27 MARCH 02

SUBMITTED BY: MALS -24- SSGT Shanks, J.W.
DSN 257-0082/2242

Over the past few years, the MF program has brought forward a few new concept short range mobilizers to replace the MC-2. None of these has matched, or can even compare to the MC-2. It is simply built, easy to repair, and effective in complexing. The problem lies in parts. Since the MF program decided to phase out this piece of gear, parts have been scarce and carcasses are beginning to appear.

RECOMMENDATION: Have the MC-2 manufactured and parts put in the system.

STATUS: 06 JUN 02

ACTION AGENCY:

Closed. In concurrence with the discussions held by the Logistics Group Review (LRG) Open Forum in attendance at St. Louis, MO on 06 June 2002 it was determined that the M-1022 is an adequate replacement for subject MC-2.
