

MOBILE FACILITY PROGRAM REVIEW  
ACTION ITEM

ACTION ITEM NO.: 2-175

DATE SUBMITTED: 04/24/07

SUBMITTED BY: GySgt Houchins, W/C 990, MALS-11

**PROBLEM:** On-line access to MFTool is view only and there are minimal fields to view. End-users, such as a MALS, should be able to make notes with regard to each Mobile Facility and its disposition.

**RECOMMENDATION:** Give read and write access to on-line MFTool database. On-line database should have a memo field so user can input message authority when authorized to transfer, deploy, survey or otherwise dispose of a Mobile Facility or ancillary equipment.

ACTION AGENCY: BAE SYSTEMS/Jamie McDonald

STATUS: 05/18/07 In work.

06/15/07 - Work is in progress to convert FleetMFTool from an Access database to a SQL database. Once this is complete, authorized users will have the ability to make changes to specific fields of data. There is no current RDD for the completion of this conversion.

03/18/08 - Conversion/testing is in process. RDD 15 Apr 2008.

07/01/08 - ACTION CLOSED. DATABASE IS LIVE.
