

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 2-185

DATE SUBMITTED: 04/18/08

SUBMITTED BY: MARFORCOM

PROBLEM: Possible TQG TBA shortages. In an effort to help expedite entry level TQG training, both MARFORCOM and MARFORPAC, in concert with ASL, agreed to provide TQG's to the schoolhouses out of the initial fleet TQG deliveries. Each MARFOR provided (1) MEP-807A and (1) MEP-809A to the east and west coast schoolhouses respectively.

RECOMMENDATION: Ensure any TQG TBA shortages on the MARFOR TBAs, that were the result of the training support transfers, are filled with future TQG deliveries.

STATUS: 04/21/08 CLOSED--No TQG TBA shortage. Excess 100 Kw and 200 Kw TQGs procured and on order.

ACTION AGENCY: MF Program Office
