

MF Program Action Item

Action Item Number: 2-197 **Date Submitted:** 04/14/10 **Submitted By:** 3D MAW ALD-IT

Problem/Project Description:

The Aviation Logistics Information Management and Support (ALIMS) Department TBA allowances for Mobile Facilities (MF) do not support the requirements placed on ALIMS to support and repair Aviation Logistics Information Technology (AVLOGIT) requirements. Specifically the Network Support Division rate two DP-04 (Supply ADP Tape Library MF's). These MF's were designed around the requirement to provide hanging storage of large 9-track magnetic media tape saves for the legacy Honeywell systems supporting NALCOMIS and SUADPS. These MF's do not support the current mission placed on NSD for storage of newer Optimized NTCSS saves to include NTCSS Viking. Additional requirements include maintenance and support of Organizational NALCOMIS on bench/counter tops, which cannot be accomplished in the existing DP-04.

Recommendation:

Request removal of one DP-04, from S00 DPD, and replace with an MF configuration similar to SU-05. This MF will be assigned to AIS NSD. This MF will require a minimum of the following characteristics:
Multiple short benches/countertops with 125v 15Amp outlets (NEMA standard 5-15R).
Three desks, each requires locking drawers.
Two locking file cabinets for storage of DLT, 8mm, 4mm, and AIT onsite backup tapes.
Multiple over the desk publication storage areas (P/N: AA-B-00540) or a centrally stacked bookcase [P/N: AA-B-00540, (Bookcase, base & top)] for storage of system administration manuals, server and network switch hardware manuals, and software configuration binders.
One multi-level shelving unit.
Stools and chairs to support bench tops and desks.
See supporting document.

Status/Course of Action: (Funded Yes No N/A)

05/12/11 - Concur, with request. ASL-34 MGySgt McCutcheon and ASL-36 MGySgt Rose have reviewed. Please go forward with action required.

05/17/11 – MFPO: Action requires TBA change for MFP to go forward.
