

ACTION ITEM NO: 4-12

DATE SUBMITTED: 19 JUL 98

SUBMITTED BY: MALS-31

PROBLEM:

Mobile Facility (MF) Complexing Training Video.

DISCUSSION:

Because of the small percentage of personnel assigned to W/C 990 who have attended GSE 6073 MOS "new" training pipeline and lack of ability to schedule sufficient amount of personnel to the MF course, inadequate number of personnel are trained in the proper complexing and decomplexing of MF's.

The MF complexing/decomplexing video is only available to those attending the MF courses taught at NAS Jacksonville and NAS North Island. If the need for the video was identified as a requirement for those GSE personnel who are the core T/O of W/C 990, then for the vast majority of those assigned to W/C 990 who do not hold the GSE MOS also should receive all of the same requirements to sustain this program until a restructuring of the program can occur.

RECOMMENDATION:

Request provide each MALS a copy of the MF complexing video to assist in training of personnel. It is imperative that the Fleet be provided copies to supplement training of new personnel assigned.

STATUS: 29 JUL 98

ASSIGNED AGENCY:

COMNAVAIR (Code 3.1B.4)

Open. COMNAVAIR Code 3.1B.4 to provide a copy of the MF complexing video to all Fleet activities, after their respective requirements are identified.

COMPLETION DATE:

16 NOV 98
