

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 4-15

DATE SUBMITTED: 04/25/07

SUBMITTED BY: GySgt Houchins, W/C 990, MALS-11

PROBLEM: Every section that utilizes or works in a Mobile Facility within a MALS is required to perform user maintenance as stated in the NAVAIRINST 13670.1B. Not one MOS track offers a basic course in Mobile Facilities, which translates to the user not being familiar with the MF he/she is working in or the proper maintenance procedures associated with that MF.

RECOMMENDATION: Develop and add an introduction to Mobile Facilities course for all MOS' that utilize a Mobile Facility. This will enhance user knowledge and improve the quality of the facility they will be working in.

STATUS: 05/18/07 Assumed by ASL-34.
05/21/09 To be addressed after the establishment of a 990 specific MOS is generated (AI# 2-179.)
05/21/09 CLOSED, per AI# 2-179, the addition of a MF specific MOS is in the process of being generated.

ACTION AGENCY: ASL-34
