

ACTION ITEM NO: 5-29

DATE SUBMITTED: 14 AUG 97

SUBMITTED BY: CG SECOND MAW (ALD-E)

PROBLEM:

Re-identification of MF Type Equipment Codes.

DISCUSSION:

Upon the issuance of a new MF PREOP or MRC deck, the type equipment codes of older vans have to be changed within SESS and NALCOMIS in order to accurately comply with the PM and make identification IAW the publications accurate. The administrative changes required are time consuming and tedious.

RECOMMENDATION:

In forthcoming changes, do not re-identify type equipment codes, merely identify those TEC's in addition to newer TEC's. This will alleviate unnecessary man-hour expenditures.

ACTION AGENCY:

NAWCADLKE (CODE 3.1.4.4)

COMPLETION DATE:

NEW ITEM

STATUS: 29 SEP 97

Open. In 1994, NAWCADLKE 3.1.4.4 consolidated Mobile Facility (MF) Work Unit/Type Equipment Code (WUC/TEC)'s to cover seven (7) basic shell types. NAVAIR 16-1-8.1 and NSLC 4790.A7210-3 contain proper WUC's and TEC's. Refer to Action Item 1-97 for additional information. MF Pre-Op and PMRM's will be revised to reflect proper TEC's tentatively scheduled for FY-98 pending funding availability.

COMPLETION DATE:

15 JAN 98

STATUS: 10 JUL 98

Open. Plans to update Maintenance Requirement Card (MRC)'s during FY99.

COMPLETION DATE:

01 JUL 99

STATUS: 15 JUL 99

Open. Plans to update Maintenance Requirement Card (MRC)'s during 60% In-Process Review (IPR) scheduled during 1st QTR FY-00.

COMPLETION DATE:

01 FEB 00
