### MAKING SUPPLEMENTAL APPROPRIATIONS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2001, AND FOR OTHER PURPOSES

---

JUNE 21, 2001.—Ordered to be printed

---

Mr. BYRD, from the Committee on Appropriations,  
submitted the following

### REPORT

[To accompany S. 1077]

The Committee on Appropriations reports the bill (S. 1077) making supplemental appropriations for the fiscal year ending September 30, 2001, and for other purposes, reports favorably thereon and recommends that the bill do pass.

The Committee considered the supplemental requests contained in the 2002 budget appendix transmitted on April 9, 2001 (H. Doc. 107-3, volume II), budget estimate No. 5, transmitted on June 1, 2001 (H. Doc. 107-80), and budget estimate No. 6, transmitted on June 11, 2001 (H. Doc. 107-84).

TITLE I—NATIONAL SECURITY MATTERS

CHAPTER 1

SUBCOMMITTEE ON COMMERCE, JUSTICE, AND STATE, THE  
JUDICIARY, AND RELATED AGENCIES

DEPARTMENT OF JUSTICE

RADIATION EXPOSURE COMPENSATION

PAYMENT TO RADIATION EXPOSURE COMPENSATION TRUST FUND

2001 appropriation to date .....	\$10,766,000
2001 supplemental estimate .....	
Committee recommendation .....	84,000,000

The Committee recommends \$84,000,000 for payment to the Radiation Exposure Compensation Trust Fund.

CHAPTER 2

SUBCOMMITTEE ON DEFENSE

DEPARTMENT OF DEFENSE

OVERVIEW

The Department of Defense has requested supplemental appropriations for fiscal year 2001 that total \$5,457,700,000. The Committee recommends net appropriations of \$5,451,700,000, a reduction of \$6,000,000 to the request. The Committee's recommendation is the result of approving fiscal year 2001 budget authority of \$6,243,700,000, to be offset by rescissions of \$792,000,000.

Based on a thorough review, the Committee recommends minor adjustments to the request. The Committee has determined that, in several cases, funds requested could be provided in fiscal year 2002 without harm to programs. This enabled the Committee to reallocate funds to operations and support programs to help minimize shortfalls. For example, the Committee recommends increases for building maintenance, spare parts purchases, and health care activities for requirements identified by the military services. Details about these and all other Committee recommendations are provided in the following report.

MILITARY PERSONNEL

OVERVIEW

The Department requests fiscal year 2001 supplemental appropriations of \$515,000,000 for the military personnel accounts.

The request includes \$116,000,000 to fund several new military personnel costs approved in the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398). These newly authorized military pays and allowances include: an increase in basic pay rates for paygrades E-5, E-6, and E-7 effective July 1, 2001 (NDAA Section 602); equitable Basic Allowance for Housing for junior enlisted members (NDAA Section 607); special pays for Reserve medical and dental officers (NDAA Section 625); and equitable Dislocation Allowance for junior enlisted members (NDAA Section 644).

In addition, the request includes \$210,000,000 to fund the Department's decision to improve the survey methodology used to determine housing allowances. This improved methodology resulted in increases to Basic Allowance for Housing rates, and should ensure the quality and safety of off-base housing for military members and their families.

Finally, the request includes \$189,000,000 to fund the following: increased subsistence costs for the Army; increased inactive duty training costs for the Army Reserve; increased basic pay rates as a result of pay table reform for the Navy; enhanced enlistment and reenlistment bonuses for the Air Force; and increased costs of Permanent Change of Station moves conducted under the Full Service Moving pilot project for all services.

The Committee recommends supplemental appropriations in the military personnel accounts totaling \$515,000,000, an amount equal to the Department's request. Details of the Department's request, and the Committee recommendation, are included in the following table:

FISCAL YEAR 2001 DOD SUPPLEMENTAL REQUEST AND COMMITTEE RECOMMENDATION—MILITARY PERSONNEL ACCOUNTS

[In millions of dollars]

	Army			Navy		Marine Corps		Air Force			Total
	Active	Reserve	Guard	Active	Reserve	Active	Reserve	Active	Reserve	Guard

4

## MILITARY PERSONNEL, ARMY

2001 appropriation to date .....	\$22,175,357,000
2001 supplemental estimate .....	164,000,000
Committee recommendation .....	164,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$164,000,000 for increased military personnel costs.

## MILITARY PERSONNEL, NAVY

2001 appropriation to date .....	\$17,772,297,000
2001 supplemental estimate .....	84,000,000
Committee recommendation .....	84,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$84,000,000 for increased military personnel costs.

## MILITARY PERSONNEL, MARINE CORPS

2001 appropriation to date .....	\$6,833,100,000
2001 supplemental estimate .....	69,000,000
Committee recommendation .....	69,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$69,000,000 for increased military personnel costs.

## MILITARY PERSONNEL, AIR FORCE

2001 appropriation to date .....	\$18,174,284,000
2001 supplemental estimate .....	126,000,000
Committee recommendation .....	126,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$126,000,000 for increased military personnel costs.

## RESERVE PERSONNEL, ARMY

2001 appropriation to date .....	\$2,473,001,000
2001 supplemental estimate .....	52,000,000
Committee recommendation .....	52,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$52,000,000 for increased military personnel costs.

## RESERVE PERSONNEL, AIR FORCE

2001 appropriation to date .....	\$971,024,000
2001 supplemental estimate .....	2,000,000
Committee recommendation .....	2,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$2,000,000 for increased military personnel costs.

## NATIONAL GUARD PERSONNEL, ARMY

2001 appropriation to date .....	\$3,782,536,000
2001 supplemental estimate .....	6,000,000
Committee recommendation .....	6,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$6,000,000 for increased military personnel costs.

## NATIONAL GUARD PERSONNEL, AIR FORCE

2001 appropriation to date .....	\$1,641,081,000
2001 supplemental estimate .....	12,000,000
Committee recommendation .....	12,000,000

The Department has requested, and the Committee recommends approval of, a supplemental appropriation of \$12,000,000 for increased military personnel costs.

## OPERATION AND MAINTENANCE

## OVERVIEW

The administration request seeks additional fiscal year 2001 funding of \$2,841,700,000 for operation and maintenance activities. In some instances funds are sought to meet the unexpected cost of natural gas and utilities at Department of Defense bases and installations, the deferred maintenance of real property, ships and aircraft. Funds are also sought to meet the costs of higher than anticipated consumption of spare parts. In other cases the armed services failed to accurately price the cost of operating aircraft, overhead at maintenance depots, or diverted funds appropriated for base operations to other purposes.

In addition to requesting supplemental funding for routine operation and maintenance activities, the Department of Defense seeks \$36,000,000 to reimburse the armed services for the costs of a Presidential directive to draw down equipment and supplies, and conduct training in support of the United Nations Mission in Sierra Leone. The Committee recommendation does not provide funding for these purposes.

*Spare parts funding.*—The Committee remains concerned with the Department's inability to articulate: the inventory requirements for spare parts; the funding levels needed to support the training and deployment requirements of the armed services; and any meaningful history of the execution of funds appropriated for spare parts. The Committee recommendation provides funding for the Navy and Air Force flying hour program, and spare parts for the Army. The Secretary of Defense shall provide the Committee with a complete accounting of any supplemental funds appropriated for spare parts. This report shall be provided to the Committee no later than October 31, 2001 and shall detail the funds expended for spare parts, allocation of funds by major command and weapons system, cost and provider for end items or spares, and any change to Global Status of Resources and Training System ratings based on this funding.

## OPERATION AND MAINTENANCE

Account	Supplemental Request	Committee Recommendation	Change
Army .....	\$655,800,000	\$784,500,000	+ \$128,700,000
Navy .....	953,400,000	1,037,900,000	+ 84,500,000
Marine Corps .....	54,400,000	62,000,000	+ 7,600,000
Air Force .....	853,200,000	824,900,000	- 28,300,000
Defense-wide .....	93,800,000	62,050,000	- 31,750,000
Army Reserve .....	20,500,000	20,500,000	.....
Navy Reserve .....	12,500,000	12,500,000	.....
Marine Corps Reserve .....	1,900,000	1,900,000	.....
Air Force Reserve .....	34,000,000	34,000,000	.....
Army National Guard .....	42,900,000	42,900,000	.....
Air National Guard .....	119,300,000	119,300,000	.....
Grand Total .....	2,841,700,000	3,002,450,000	+ 160,750,000

## OPERATION AND MAINTENANCE, ARMY

2001 appropriation to date .....	\$19,144,431,000
2001 supplemental estimate .....	655,800,000
Committee recommendation .....	784,500,000

The Committee recommends appropriations of \$784,500,000 for operation and maintenance, Army. Supplemental funding of \$172,800,000 is recommended to fund the increased cost of base level utilities, \$300,000 for the Department of Defense's energy demand reduction program in California, and \$214,000,000 to reduce the current backlog of repair for real property maintenance.

Although the Committee provided adequate resources to fund the cost of base operations support for fiscal year 2001, the service diverted these funds to other programs. The Committee recommends restoring \$300,000,000 for base operations support to enable the Army to maintain current base level activities through the fiscal year. The Committee recommends an additional \$2,400,000 for the costs of Army activities in East Timor, and \$30,000,000 for spare parts.

The Committee directs that supplemental real property maintenance funds recommended in the bill shall provide the following program:

[In thousands of dollars]

<i>Command</i>	<i>Committee recommendation</i>
MDW .....	8,018
FORSCOM .....	45,000
EUSA .....	21,000
USARPAC .....	40,000
USAREUR .....	51,712
TRADOC .....	16,900
COE .....	1,827
ATEC .....	9,000
AMC .....	15,500
MEDCOM .....	5,043
Total .....	214,000

The administration requested a supplemental appropriation of \$3,000,000 for classified programs in this account. The Committee recommends approval of the request.

## OPERATION AND MAINTENANCE, NAVY

2001 appropriation to date .....	\$23,419,360,000
2001 supplemental estimate .....	953,400,000
Committee recommendation .....	1,037,900,000

The Committee recommends appropriations of \$1,037,900,000 for operation and maintenance, Navy, \$84,500,000 more than the administration request. Supplemental funding of \$425,000,000 is recommended to fund the flying hour program, \$37,000,000 to fund the increased cost of base level utilities, \$14,000,000 for the Department of Defense's energy demand reduction program in California, and \$44,000,000 to reduce the current backlog of repair for real property maintenance. The Committee recommends supplemental funding of \$77,000,000 for aircraft depot maintenance, and \$200,000,000 for ship depot maintenance.

Supplemental funding of \$36,000,000 is recommended to fund the Navy's EHIME MARU recovery operations, and \$22,000,000 for force protection. The Committee recommends an additional \$20,000,000 for ship depot operations support, and an additional \$33,500,000 for base operations support.

The Committee recommends an additional \$38,000,000 in supplemental funding only for initiatives of the Commander in Chief, U.S. Pacific Command such as engagement and exercise costs, and command, control, communications and intelligence enhancements.

The administration requested a supplemental appropriation of \$8,400,000 for classified programs in this account. The Committee recommends approval of the request.

## OPERATION AND MAINTENANCE, MARINE CORPS

2001 appropriation to date .....	\$2,778,758,000
2001 supplemental estimate .....	54,400,000
Committee recommendation .....	62,000,000

The Committee recommends appropriations of \$62,000,000 for operation and maintenance, Marine Corps. Supplemental funding of \$38,000,000 is recommended to fund the increased cost of base level utilities, and \$5,400,000 for the Department of Defense's energy demand reduction program in California. Supplemental funding of \$11,000,000 is recommended to fund force protection programs. The Committee recommends \$2,600,000 above the administration request for Marine Corps operations in East Timor and \$5,000,000 for strategic lift in the Pacific.

## OPERATION AND MAINTENANCE, AIR FORCE

2001 appropriation to date .....	\$22,383,521,000
2001 supplemental estimate .....	853,200,000
Committee recommendation .....	824,900,000

The Committee recommends appropriations of \$824,900,000 for operation and maintenance, Air Force, an amount \$28,300,000 less than the administration request. Supplemental funding of \$136,200,000 is recommended to fund the increased cost of base level utilities, and \$4,800,000 for the Department of Defense's energy demand reduction program in California.

Supplemental funding of \$418,000,000 is recommended to correct the underpricing of the flying hour program, and increased con-

sumption of spare parts. Supplemental funding of \$175,000,000 is recommended to meet increased overhead, labor and material costs for aircraft depot maintenance. The Committee recommends supplemental funding of \$7,000,000 for base operations support, and \$11,000,000 to fund fully the cost of Joint Chiefs of Staff exercises such as Northern Edge. The Committee recommends supplemental funding for real property maintenance of \$16,000,000 to be equally allocated to installations within Air Combat Command, Europe and the Pacific.

The Committee recommends supplemental funding of \$38,500,000 for contractor logistics support, \$24,500,000 less than the administration request for C-37A and C-40 operating costs because these aircraft will not be delivered until the second half of fiscal year 2002.

The administration requested a supplemental appropriation of \$18,400,000 for classified programs in this account. The Committee recommends approval of the request, which includes \$4,100,000 for the increased cost of operations for COBRA BALL aircraft.

#### OPERATION AND MAINTENANCE, DEFENSE-WIDE

2001 appropriation to date .....	\$11,844,480,000
2001 supplemental estimate .....	93,800,000
Committee recommendation .....	62,050,000

The Committee recommends appropriations of \$62,050,000 for operation and maintenance, Defense-wide, an amount \$31,750,000 less than the administration request. Supplemental funding of \$23,900,000 is recommended to fund the increased cost of base level utilities, and \$20,000,000 for increased costs to the flying hour program of the Special Operations Command.

The administration requested a supplemental appropriation of \$35,400,000 for classified programs in this account. The Committee recommends approval of \$18,150,000. This amount is \$17,250,000 less than the administration request and is addressed in the Classified Annex of this Report.

#### OPERATION AND MAINTENANCE, ARMY RESERVE

2001 appropriation to date .....	\$1,562,118,000
2001 supplemental estimate .....	20,500,000
Committee recommendation .....	20,500,000

The Committee recommends appropriations of \$20,500,000 for operation and maintenance, Army Reserve, an amount equal to the administration request. Supplemental funding of \$13,500,000 is recommended to fund the increased cost of utilities at the base level, and \$7,000,000 for the cost of base operations support.

#### OPERATION AND MAINTENANCE, NAVY RESERVE

2001 appropriation to date .....	\$978,946,000
2001 supplemental estimate .....	12,500,000
Committee recommendation .....	12,500,000

The Committee recommends appropriations of \$12,500,000 for operation and maintenance, Navy Reserve, an amount equal to the administration request. Supplemental funding of \$5,500,000 is rec-

ommended to fund the increased cost of utilities at the base level, and \$7,000,000 for the cost of base operations support.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

2001 appropriation to date .....	\$145,959,000
2001 supplemental estimate .....	1,900,000
Committee recommendation .....	1,900,000

The Committee recommends appropriations of \$1,900,000 for operation and maintenance, Marine Corps Reserve, an amount equal to the administration request. Supplemental funding is recommended to fund the increased cost of utilities at the base level.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

2001 appropriation to date .....	\$1,903,659,000
2001 supplemental estimate .....	34,000,000
Committee recommendation .....	34,000,000

The Committee recommends appropriations of \$34,000,000 for operation and maintenance, Air Force Reserve, an amount equal to the administration request. Supplemental funding of \$6,000,000 is recommended to fund the increased cost of utilities at the base level. Supplemental funding of \$14,000,000 is recommended to correct the underpricing of the flying hour program, and increased consumption of spare parts. Supplemental funding of \$14,000,000 is recommended to meet increasing overhead, labor and material costs for aircraft depot maintenance.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

2001 appropriation to date .....	\$3,333,835,000
2001 supplemental estimate .....	42,900,000
Committee recommendation .....	42,900,000

The Committee recommends appropriations of \$42,900,000 for operation and maintenance, Army National Guard, an amount equal to the administration request. Supplemental funding of \$13,900,000 is recommended to fund the increased cost of utilities at the base level. The Committee recommends \$10,000,000 in supplemental funding for base operations support, and \$19,000,000 for real property maintenance.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

2001 appropriation to date .....	\$3,474,375,000
2001 supplemental estimate .....	119,300,000
Committee recommendation .....	119,300,000

The Committee recommends appropriations of \$119,300,000 for operation and maintenance, Air National Guard, an amount equal to the administration request. Supplemental funding of \$16,300,000 is recommended to fund the increased cost of utilities at the base level. Supplemental funding of \$93,000,000 is recommended to correct the underpricing of the flying hour program, and increased consumption of spare parts. Supplemental funding of \$10,000,000 is recommended to meet increasing overhead, labor and material costs for aircraft depot maintenance.

## PROCUREMENT

## OTHER PROCUREMENT, ARMY

2001 appropriation to date .....	\$4,497,009,000
2001 supplemental estimate .....	3,000,000
Committee recommendation .....	3,000,000

The Department has requested and the Committee recommends approval of a supplemental appropriation of \$3,000,000 for electrical demand reduction efforts in California.

## SHIPBUILDING AND CONVERSION, NAVY

2001 appropriation to date .....	\$11,614,633,000
2001 supplemental estimate .....	222,000,000
Committee recommendation .....	297,000,000

The Committee recommends \$297,000,000 for the shipbuilding and conversion, Navy appropriation for increased costs on ships currently under construction. This amount is \$75,000,000 above the request. This addition will cover anticipated costs of on-going construction on the LPD-17 through the end of the year. Without these funds the shipbuilder would be required to initiate lay-offs beginning on August 1 of this year. The funds for this purpose are reallocated from existing LPD-17 class ship funding in the fiscal year 2001 bill. This offset is addressed in section 1204.

## AIRCRAFT PROCUREMENT, AIR FORCE

2001 appropriation to date .....	\$7,583,345,000
2001 supplemental estimate .....	84,000,000
Committee recommendation .....	78,000,000

The Department has requested a supplemental appropriation of \$84,000,000 for Aircraft Procurement, Air Force. The Committee recommends a supplemental appropriation of \$78,000,000, a decrease of \$6,000,000 to the request.

*C-17 Aircraft.*—The Department has requested and the Committee recommends approval of a supplemental appropriation of \$49,000,000 to finance increased C-17 overhead costs.

*B-52 Aircraft.*—The Department has proposed to cancel \$25,100,000 appropriated in fiscal year 2001 to make upgrades to 18 attrition reserve B-52 aircraft. The Committee denies this request and directs the Department to immediately begin the upgrades to the aircraft.

*Classified Programs.*—The Committee recommends \$29,000,000 for RC-135 re-engining, as requested in the General Defense Intelligence Program, to fund the engine kit and associated engineering costs for the final COBRA BALL aircraft requiring this upgrade. The Committee recognizes that this will serve to match up the re-engining with the scheduled depot maintenance period for this aircraft. This is \$6,000,000 less than the Department's request and this adjustment is addressed in the Classified Annex of this Report.

## MISSILE PROCUREMENT, AIR FORCE

2001 appropriation to date .....	\$2,863,778,000
2001 supplemental estimate .....	15,500,000
Committee recommendation .....	

The Administration has requested a supplemental appropriation of \$15,500,000 for GPS NUDET in the National Reconnaissance Program. The Committee recommendation includes \$15,500,000 for GPS NUDET in Missile Procurement, Air Force. The GPS NUDET sensor program has been marked by fragmented advocacy and lack of a unified vision, which has plagued the development of v-sensor technology for over 3 years. The Committee directs the Secretary of Defense to transfer funding for GPS NUDET in fiscal year 2001 and the outyears to the Air Force. The Committee expects the Air Force, as the executive agent for space, to protect the interests of the diverse stakeholders who rely on enabling space technology to achieve mission success.

#### PROCUREMENT OF AMMUNITION, AIR FORCE

2001 appropriation to date .....	\$647,808,000
2001 supplemental estimate .....	73,000,000
Committee recommendation .....	31,200,000

The Committee recommends a total increase of \$31,200,000 in new budget authority for the procurement of training munitions, a reduction of \$41,800,000 from the Department's supplemental appropriations request. The Committee is concerned about the Air Force's ammunition budgeting methodologies, as supplemental and reprogramming requests are, for some munitions, tenfold that of the annual request found in the President's Budget. The Committee strongly encourages the Air Force to more accurately plan and budget for ammunition needs.

#### OTHER PROCUREMENT, AIR FORCE

2001 appropriation to date .....	\$7,763,747,000
2001 supplemental estimate .....	162,900,000
Committee recommendation .....	165,650,000

The Committee recommends approval of a supplemental appropriation of \$165,650,000 for the "Other Procurement, Air Force" account.

*California Electrical Demand Reduction.*—The Department has requested and the Committee recommends approval of a supplemental appropriation of \$1,200,000 for electrical demand reduction efforts in California.

*Classified Programs.*—The Department requested a supplemental appropriation of \$161,700,000 for classified programs in this account. The Committee recommends approval of \$164,450,000. This is \$2,750,000 more than the Department's request and is addressed in the Classified Annex of this Report.

#### PROCUREMENT, DEFENSE-WIDE

2001 appropriation to date .....	\$2,346,258,000
2001 supplemental estimate .....	5,800,000
Committee recommendation .....	5,800,000

The Department has requested and the Committee recommends approval of a supplemental appropriation of \$5,800,000 for the "Procurement, Defense-wide" account. A detailed explanation is provided in the Classified Annex of this Report.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

2001 appropriation to date .....	\$9,494,374,000
2001 supplemental estimate .....	108,000,000
Committee recommendation .....	123,000,000

The Department has requested a supplemental appropriation of \$108,000,000 for "Research, Development, Test and Evaluation, Navy". The Committee recommends a supplemental appropriation of \$123,000,000. This is an increase of \$15,000,000 to the request.

*Joint Experimentation.*—The Department requested a supplemental appropriation of \$15,000,000 for Joint Experimentation in Research, Development, Test and Evaluation, Defense-Wide. The Committee recommends approval of the request and transfers the funding to Navy.

*V-22.*—The Department requested and the Committee recommends a supplemental appropriation of \$80,000,000 for the V-22 RDT&E program only for correction of deficiencies, flight test and flight test support. To achieve the minimum aircraft production levels judged by the Department to be necessary, the Committee recommends adjusting the proposed reduction to the Marine Corps V-22 procurement program, allowing for purchase of 11 aircraft. A reduction of \$150,000,000 to this program is approved instead of the \$235,000,000 reduction proposed by the Department. For the CV-22 program, the Committee believes that deferring all fiscal year 2001 available procurement funding until the Department makes significant progress to correct deficiencies in the aircraft is prudent. As such, a total cut of \$363,000,000 to the enacted fiscal year 2001 CV-22 procurement level is recommended, compared to a reduction of \$240,000,000 proposed by DOD. A general provision, Sec. 1204, is included which incorporates these adjustments.

*Classified Programs.*—The Committee recommends as requested \$28,000,000 for classified programs in this account. These programs are addressed in the Classified Annex of this Report.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

2001 appropriation to date .....	\$14,138,244,000
2001 supplemental estimate .....	247,500,000
Committee recommendation .....	227,500,000

The Department has requested a supplemental appropriation of \$247,500,000 for "Research, Development, Test and Evaluation, Air Force". The Committee recommends a supplemental appropriation of \$227,500,000. This is a decrease of \$20,000,000 to the request.

*Airborne Laser.*—The Department has requested and the Committee recommends approval of a supplemental appropriation of \$153,000,000 for the Airborne Laser.

*Launch Vehicle Demonstration.*—The Department has requested and the Committee recommends approval of a supplemental appropriation of \$48,000,000 for a Heavy Lift Demonstration Launch for the Evolved Expandable Launch vehicle (EELV) program.

*Global Hawk.*—The Committee recommends approval of the Department's request for a supplemental appropriation of \$25,000,000

to fund some of the components needed to accelerate Global Hawk's development into a U-2 parity platform. These improvements will include power upgrades to provide sufficient payload power to support multiple intelligence missions and engine upgrades to increase engine performance and payload capability.

*Small Diameter Bomb.*—The Department has requested a supplemental appropriation of \$20,000,000 for a new program to develop a Small Diameter Bomb (SDB). The Committee does not recommend approval of this request. The Committee notes that \$12,000,000 appropriated for this purpose in fiscal year 2001 is on withhold in the Office of the Secretary of Defense. The Committee is concerned that program outlined by the Air Force is unexecutable and notes that a contract award before the end of the fiscal year is unlikely. The Committee remains supportive of this initiative and encourages the Department to begin the program with the previously appropriated funds. The Committee will consider additional funding for the program during consideration of the fiscal year 2002 budget.

*Classified Programs.*—The Committee recommends as requested \$1,500,000 for classified programs in this account. These programs are addressed in the Classified Annex of this Report.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

2001 appropriation to date .....	\$11,157,375,000
2001 supplemental estimate .....	85,000,000
Committee recommendation .....	35,000,000

The Committee recommends approval of a supplemental appropriation of \$35,000,000 for the "Research, Development, Test and Evaluation, Defense-wide" account.

*Joint Experimentation.*—The Department has requested a supplemental appropriation for Joint Experimentation. The Committee recommends approval of the request in the Research, Development, Test and Evaluation, Navy appropriation.

*Classified Programs.*—The Department requested a supplemental appropriation of \$70,000,000 for classified programs in this account. Of this amount, the Committee recommends approval of \$31,000,000. This is \$39,000,000 less than the Department's request and is addressed in the Classified Annex of this Report.

*PIPES.*—The Committee recommends \$4,000,000 for the Pacific Command Imagery Processing Exploitation Segment and an offsetting rescission, in section 1204, from the same program to make funding available for the current fiscal year.

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

2001 appropriation to date .....	\$916,276,000
2001 supplemental estimate .....	178,400,000
Committee recommendation .....	178,400,000

The Committee recommends appropriations of \$178,400,000 for the Defense Working Capital Fund, an amount equal to the administration request. Supplemental funding is recommended to fund the increased cost of utilities at the base and installation level.

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

2001 appropriation to date .....	\$12,117,779,000
2001 supplemental estimate .....	1,453,400,000
Committee recommendation .....	1,522,200,000

The Department requests fiscal year 2001 supplemental appropriations of \$1,453,400,000 for the Defense Health Program. The Committee recommends a supplemental appropriation of \$1,522,200,000, which is \$68,800,000 more than the supplemental request.

OVERVIEW

The Committee continues to be very concerned with the adequacy of funding provided to the Defense Health Program (DHP). It is the Committee's view that chronic under funding of the DHP has adversely impacted the Military Health System's ability to provide a complete, modern, and robust health benefit for military members, their families, and military retirees.

The Committee's recommendation represents a significant increase of almost 13 percent to the DHP appropriation for fiscal year 2001, which continues a distressing trend. Last year, the Congress appropriated \$1,311,500,000 in emergency supplemental funding to cover DHP shortfalls.

The Committee has identified numerous maladies in the DHP, which were explored in depth during the Committee's hearing on DOD medical programs earlier this year.

DHP budgets routinely have artificially low assumptions for medical inflation, or have assumed unrealistic cost saving wedges which then never materialize. These suppressed budget requests inevitably result in large execution year shortfalls, which are then partially covered by disrupting planned investments, required maintenance, and adequate staffing.

The system labors under managed care support contracts that are poorly structured, unnecessarily complex, and inaccurately priced. These contracts have put the Department's managed care support contractors at financial risk, and settlement of unanticipated claims due under the contracts has been tremendously costly.

Faced with requirements that outstrip resources, the Department has adopted the habit of always making the direct care system (or military Medical Treatment Facilities) absorb the shortfalls. This migration of funds away from military hospitals and clinics cripples the very portion of the system that, with the proper level of resources and sound investment, could be the most cost-effective.

The Committee expects to receive a fiscal year 2002 DHP budget request that addresses these issues, adequately states the requirements of the Military Health System, and then fully funds those requirements. A fully funded DHP budget would make large, execution year supplemental appropriations unnecessary.

COMMITTEE RECOMMENDATION

The Committee recommends funding the Department's request, and an additional \$68,800,000 for the direct care system and mili-

tary Medical Treatment Facilities. This increase is to accommodate additional immediate shortfalls identified to the Committee by the service Surgeons General.

Also, and consistent with the Department’s request, the Committee recommends an appropriation of \$100,000,000 to fund increased pharmacy costs experienced in military Medical Treatment Facilities as a result of the recently authorized pharmacy benefit for Medicare eligible military retirees.

The Committee recommendation for the Defense Health Program is shown in the following table:

Item	Supplemental Request	Committee Recommendation	Change
Direct Care System/Military Medical Treatment Facilities (MTFs) .....	\$151,200,000	\$220,000,000	+\$68,800,000
Managed Care Support Contracts .....	655,000,000	655,000,000	.....
Other Private Sector Care .....	131,300,000	131,300,000	.....
New benefits authorized in fiscal year 2001 NDAA (Public Law 106–398) .....	389,500,000	389,500,000	.....
Increased MTF pharmacy costs for Medicare eligible military retirees .....	100,000,000	100,000,000	.....
Increased utilities expense .....	26,400,000	26,400,000	.....
<b>Total .....</b>	<b>1,453,400,000</b>	<b>1,522,200,000</b>	<b>+ 68,800,000</b>

OUTCOMES MANAGEMENT DEMONSTRATION

In the Department of Defense Appropriations Act, 2001 (Public Law 106–259), the Congress provided \$10,000,000 for an outcomes management demonstration at the Walter Reed Army Medical Center (WRAMC).

This project will demonstrate new techniques for delivering medical care that emphasize prevention and other health promotion methods for treating conditions such as diabetes, heart disease, chronic viral hepatitis, stroke, and breast cancer. By focusing on total patient care, rather than the traditional treatment of illness, this demonstration is intended to save lives, save resources, and improve health care for our military members, their families, and military retirees.

From within the supplemental appropriation provided for the Defense Health Program, the Committee directs that \$16,000,000 be made available to continue the outcomes management demonstration at WRAMC.

GENERAL PROVISIONS—THIS CHAPTER

SEC. 1201. *Fuel Transfer.*—The Committee recommendation includes a general provision proposed by the administration concerning fuel transferred by the Defense Energy Supply Center to the Department of the Interior.

SEC. 1202. *Intelligence Activities.*—The Committee recommendation includes a general provision proposed by the administration concerning authorization of intelligence activities.

SEC. 1203. *U.S.S. Cole Repair.*—The Committee recommendation includes a general provision proposed by the administration concerning repair of the U.S.S. *Cole*.

SEC. 1204. *Rescissions.*—The Committee recommendation includes rescissions of \$513,000,000 from the amounts provided for procurement of the Navy MV-22 and the Air Force CV-22 tilt-rotor aircraft programs, \$200,000,000 from the Overseas Contingency Operations Transfer Fund, \$75,000,000 from LPD-17(AP), and \$4,000,000 from Research, Development, Test and Evaluation, Defense-wide.

SEC. 1205. *Fort Greely.*—The Committee recommendation includes a general provision concerning Fort Greely, Alaska.

SEC. 1206. *Maritime Fire Training Centers.*—The Committee recommendation includes a general provision that makes a technical correction to the fiscal year 2001 appropriation for Maritime Fire Training Centers.

CHAPTER 3

SUBCOMMITTEE ON ENERGY AND WATER DEVELOPMENT

DEPARTMENT OF ENERGY

ATOMIC ENERGY DEFENSE ACTIVITIES

NATIONAL NUCLEAR SECURITY ADMINISTRATION

WEAPONS ACTIVITIES

2001 appropriation to date .....	\$5,006,153,000
2001 supplemental estimate .....	140,000,000
Committee recommendation .....	140,000,000

The Committee recommends an additional appropriation of \$140,000,000, the amount of the Administration's request, for Weapons Activities of the National Nuclear Security Administration (NNSA) within the Department of Energy.

While the Committee has chosen to provide these additional appropriations, it remains gravely concerned about the Department's ability to produce and certify a pit.

Further, the Committee is surprised that the Administration has chosen not to request any supplemental funding for Weapon's Complex infrastructure improvements. In written and oral testimony to the Committee this year, the Department repeatedly highlighted the safety, morale, and productivity problems that crumbling infrastructure is causing the NNSA. However, the Administration's request for supplemental appropriations is silent on this matter. The Committee hopes and expects that the Administration will work with Congress to remedy this discrepancy as the fiscal year 2002 funding bill is developed.

DIRECTED STOCKPILE WORK

The Committee recommendation includes \$54,000,000 for directed stockpile work. The recommendation provides \$31,100,000 for stockpile research and development; \$18,900,000 for stockpile maintenance; and \$4,000,000 for stockpile evaluation.

CAMPAIGNS

The Committee recommendation includes \$24,000,000 for campaigns. The recommendation provides \$12,000,000 for enhanced surveillance; \$3,000,000 for advanced design and production technologies; \$1,800,000 for secondary readiness; \$4,000,000 for pit manufacturing readiness; \$1,600,000 for high explosive readiness; and \$1,600,000 for non-nuclear readiness.

READINESS IN TECHNICAL BASE AND FACILITIES

The Committee recommendation includes \$62,000,000 for readiness in technical base and facilities. The recommendation provides \$28,100,000 for operation of facilities; \$7,500,000 for program readiness; \$12,500,000 for materials recycling and recovery; \$8,800,000 for containers; and \$1,200,000 for storage.

Additionally, the Committee recommendation authorizes two projects to progress from preliminary engineering and design work to construction. The new projects are 01-D-107, the Atlas Relocation and Operations at the Nevada Test Site; and 01-D-108, the Microsystems and Engineering Science Applications (MESA) Complex Facility at Sandia National Laboratories in New Mexico. Consistent with this direction, available funding in project 01-D-103, Preliminary Project Design and Engineering, is reduced by \$13,289,000; project 01-D-107, Atlas Relocation and Operations is increased by \$7,689,000, of which an additional \$3,900,000 is provided for Atlas construction in order to complete the relocation by fiscal year 2003; and project 01-D-108, Microsystems and Engineering Sciences Applications (MESA) Complex Facility is increased by \$9,500,000.

OTHER DEFENSE RELATED ACTIVITIES

DEFENSE ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT

2001 appropriation to date .....	\$4,963,533,000
2001 supplemental estimate .....	100,000,000
Committee recommendation .....	95,000,000

The Committee recommends an additional appropriation of \$95,000,000, the amount of the Administration's request, for Defense Environmental Restoration and Waste Management.

SITE AND PROJECT COMPLETION

The Committee recommendation includes \$26,500,000 for Site/Project Completion activities. This recommendation includes \$3,000,000 for the Pantex Plant Site Remediation Project in Texas; \$10,000,000 for acceleration of activities under the spent nuclear fuels project in Washington; \$5,000,000 for accelerated deactivation of the Plutonium Finishing Plant in Washington; and \$8,500,000 for plutonium packaging and stabilization project at Savannah River in South Carolina.

POST-2006 COMPLETION

The Committee recommendation includes \$68,500,000 for Post-2006 Completion activities. This recommendation includes \$7,000,000 for additional shipping containers to support the oper-

ational capability of the Waste Isolation Pilot Project in New Mexico; \$10,000,000 for tank waste retrieval engineering activities in Washington; \$25,000,000 to the Office of River Protection to supplement engineering activities and provide economies of scale in the procurement of bulk materials necessary for the Waste Treatment and Immobilization Plant in Washington; \$3,300,000 to complete the engineering for the F Reactor Safe Storage Roof enclosure in Washington; \$6,600,000 for activities at the H-Tank Farm at the Savannah River site in South Carolina; \$3,600,000 for activities at the F-Tank Farm at Savannah River in South Carolina; \$800,000 for high level waste removal at the Savannah River Site in South Carolina; and \$12,200,000 for salt disposition activities at the Savannah River Site in South Carolina.

DEFENSE FACILITIES CLOSURE PROJECTS

2001 appropriation to date .....	\$1,080,331,000
2001 supplemental estimate .....	21,000,000
Committee recommendation .....	21,000,000

The Committee recommends an additional appropriation of \$21,000,000, the amount of the Administration's request, for defense facility closure projects. These additional funds are provided to accelerate the closure of defense environmental management sites. This includes construction and acquisition of plant and capital equipment, as well as other necessary expenses within the Ohio Operations Office.

DEFENSE ENVIRONMENTAL MANAGEMENT PRIVATIZATION

2001 appropriation to date .....	\$65,000,000
2001 supplemental estimate .....	29,600,000
Committee recommendation .....	29,600,000

The Committee recommends an additional appropriation of \$29,600,000, the amount of the Administration's request, for the Defense Environmental Management Privatization program. The Committee recommendation provides this amount to accelerate construction of the Advanced Mixed Waste Treatment Facility in Idaho. It is the Committee's expectation that this supplemental appropriation, coupled with adequate funding in fiscal year 2002, will ensure completion of construction in the fourth quarter of fiscal year 2002. The Committee expects retrieval operations to begin not later than the first quarter of fiscal year 2003.

OTHER DEFENSE ACTIVITIES

WORKER AND COMMUNITY TRANSITION

2001 appropriation to date .....	\$582,466,000
2001 supplemental estimate .....	
Committee recommendation .....	5,000,000

The Committee recommendation includes \$5,000,000 for worker and community transition. These funds are provided for workforce restructuring at the Idaho National Engineering and Environmental Laboratory. The funds are provided for financial incentives to encourage voluntary separations and to mitigate the impact on involuntarily separated workers.

## CHAPTER 4

## SUBCOMMITTEE ON MILITARY CONSTRUCTION

## DEPARTMENT OF DEFENSE

## MILITARY CONSTRUCTION, AIR FORCE

2001 appropriation to date .....	\$880,268,000
2001 supplemental estimate .....	18,000,000
Committee recommendation .....	18,000,000

The Committee recommends an additional \$18,000,000 for Military Construction, Air Force, to carry out a military construction and renovation project at the Masirah Island Airfield, Oman.

## FAMILY HOUSING, ARMY

2001 appropriation to date .....	\$1,185,092,000
2001 supplemental estimate .....	27,200,000
Committee recommendation .....	27,200,000

The Committee recommends that \$27,200,000 be made available for Family Housing, Army, for operation and maintenance to pay for increases in the cost of utilities during fiscal year 2001.

## FAMILY HOUSING, NAVY AND MARINE CORPS

2001 appropriation to date .....	\$1,296,860,000
2001 supplemental estimate .....	20,300,000
Committee recommendation .....	20,300,000

The Committee recommends that \$20,300,000 be made available for Family Housing, Navy and Marine Corps, for operation and maintenance to pay for increases in the cost of utilities during fiscal year 2001.

## FAMILY HOUSING, AIR FORCE

2001 appropriation to date .....	\$1,070,474,000
2001 supplemental estimate .....	18,000,000
Committee recommendation .....	18,000,000

The Committee recommends that \$18,000,000 be made available for Family Housing, Air Force, for operation and maintenance. Of this amount, \$16,700,000 is to be used for increases in the cost of utilities during fiscal year 2001. The remaining \$1,300,000 is to fund a Department of Defense initiative to reduce peak demand for electricity in Air Force family housing units in California.

## BASE REALIGNMENT AND CLOSURE ACCOUNT, PART IV

2001 appropriation to date .....	\$1,022,115,000
2001 supplemental estimate .....	9,000,000
Committee recommendation .....	9,000,000

The Committee recommends that \$9,000,000 be made available as requested by the Air Force for environmental clean-up at McClellan AFB, California, related to Base Realignment and Closure operations.

TITLE II—OTHER SUPPLEMENTAL APPROPRIATIONS

CHAPTER 1

SUBCOMMITTEE ON AGRICULTURE, RURAL DEVELOPMENT AND  
RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

OFFICE OF THE SECRETARY

The Committee is seriously concerned by press reports of inhumane animal treatment in regard to livestock production and slaughter and other activities under the jurisdiction of the Department of Agriculture. The Secretary is directed to provide a report to the Committee on Appropriations of the House and the Senate as soon as possible on activities of the Animal and Plant Health Inspection Service, the Food Safety Inspection Service, and agencies under the jurisdiction of the Under Secretary for Research, Education and Economics regarding reported cases of inhumane animal treatment, the response of USDA regulatory agencies, and the research, development, and promotion of technologies to help reduce the incidence of such treatment.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE

SALARIES AND EXPENSES

2001 appropriation to date .....	\$529,397,000
2001 supplemental estimate .....	35,000,000
Committee recommendation .....	35,000,000

The Committee recommends an additional \$35,000,000, as requested by the Administration, for salaries and expenses of the Animal and Plant Health Inspection Service. These funds are to be used for inspections, animal health assessments, planning, and other assistance to guard against the threat of foreign animal disease.

FARM SERVICE AGENCY

AGRICULTURAL CONSERVATION PROGRAM

(RESCISSION)

The Committee recommendation includes a rescission of \$45,000,000 of unobligated funds remaining in the Agricultural Conservation Program. This program was terminated subsequent to enactment of the Federal Agriculture Improvement and Reform Act of 1996.

## GENERAL PROVISIONS—THIS CHAPTER

SEC. 2101. The Committee recommends language that makes a technical correction to the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001 (Public Law 106–387) regarding plant quarantine facilities.

SEC. 2102. The Committee recommends language that makes a technical correction to the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001 (Public Law 106–387) regarding the delivery of rural development programs.

The Committee does not include a provision, as requested by the Administration, to provide \$20,000,000 to producers in the Klamath Basin. While the Committee is concerned that producers in the Klamath Basin are experiencing losses due to adverse weather conditions, it is necessary to provide equitable treatment to all farmers and ranchers suffering similar losses. The Committee requests the Department to prepare an analysis of actual and projected crop and livestock losses in 2001 and provide a report to the House and Senate Committees on Appropriations at the earliest time practicable.

## MANDATORY LIVESTOCK PRICE REPORTING

The Committee is aware of proposed changes to the manner in which proprietary information is protected under implementation of mandatory livestock price reporting. To ensure compliance with congressional intent, the Committee directs the Secretary to take action as early as possible to provide producers and other interested parties with information useful for prudent and fact-based market decisions.

## CHAPTER 2

SUBCOMMITTEE ON COMMERCE, JUSTICE, AND STATE, THE  
JUDICIARY, AND RELATED AGENCIES

## DEPARTMENT OF COMMERCE

## NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

## COASTAL AND OCEAN ACTIVITIES

## (INCLUDING RESCISSION)

The Committee includes bill language to make a technical correction to ensure that funds provided for the ACE Basin National Estuarine Research Reserve under this heading in Public Law 106–553 are provided in the following manner: \$3,000,000 for construction and \$5,000,000 for land acquisition.

DEPARTMENTAL MANAGEMENT  
 EMERGENCY OIL AND GAS GUARANTEED LOAN PROGRAM  
 (RESCISSION)

2001 appropriation to date .....	.....
2001 supplemental estimate .....	.....
Committee recommendation .....	-\$110,000,000

The Committee recommends a rescission of \$110,000,000 from the Emergency Oil and Gas Loan Guarantee Program.

RELATED AGENCY

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

(INCLUDING RESCISSION)

The Committee includes bill language to make a technical correction to ensure that all funds provided under this heading in Public Law 106-553 remain available until expended.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING RESCISSION)

The Committee includes bill language to make a technical correction to ensure that all funds provided under this heading in Public Law 106-553 remain available until expended.

GENERAL PROVISIONS—THIS CHAPTER

SEC. 2201. The Committee includes bill language to make a technical correction to Public Law 106-256 to add two positions to the Oceans Commission.

SEC. 2202. The Committee includes bill language to make a technical correction to Public Law 106-554.

SEC. 2203. The Committee includes bill language making minor changes to the American Fisheries Act (AFA) to preserve the commercial fishing industry's access to capital financing after October 1, 2001. The AFA created new ownership requirements for United States fishing vessels, including a requirement that financial institutions making loans to fishing vessels must be 51 percent U.S. owned and controlled or use a mortgage trustee which meets the same standard. However, the AFA and its implementing regulations make it too difficult for lenders to prove their citizenship. Large lenders (as lenders and as mortgage trustees) cannot show that their shareholders have U.S. addresses—shares are traded thousands of times a day, and it is far too costly to trace shareholder addresses through mutual funds. These restrictions also make it impossible for lenders to “syndicate,” or re-sell, fishing industry loans, thereby raising the cost of financing.

Subsection (a) moves the provisions defining a mortgage trustee from chapter 121 of title 46, which provides for vessel documentation, to chapter 313, which provides for vessel mortgages.

Subsection (b) expands the class of lenders eligible to hold preferred mortgages on fishing vessels to accurately reflect the current scope of lenders.

Subsection (c) provides that mortgage trustees must meet the same citizenship requirements as lenders, and allows the Secretary to require additional proof that there is no impermissible non-citizen control of fishing vessels.

Subsection (d) delays the effective date of the changes made in this section to allow for new regulations.

CHAPTER 3

SUBCOMMITTEE ON THE DISTRICT OF COLUMBIA

The Committee considered the request from the Government of the District of Columbia to authorize the use of certified additional local revenues totaling \$106,677,000. The Committee authorizes the District of Columbia to use \$104,526,000 of the \$109,547,000 in additional local revenues to support budget authority needed to address budget pressures in fiscal year 2001. The additional \$2,151,000 for the Water and Sewer Authority (WASA), an enterprise fund, is supported by its own revenue. The additional local revenues and additional WASA revenues were certified by the Financial Authority on February 14, 2001.

DISTRICT OF COLUMBIA FUNDS

GOVERNMENTAL DIRECTION AND SUPPORT

2001 appropriation to date .....	\$158,453,000
2001 supplemental estimate .....	5,400,000
Committee recommendation .....	5,400,000

The Committee recommends an increase of \$5,400,000 from local funds to prevent a cost overrun for the District's utility costs, due to an 84 percent increase in the price of natural gas.

ECONOMIC DEVELOPMENT AND REGULATION

2001 appropriation to date .....	\$53,557,000
2001 supplemental estimate .....	1,624,820
Committee recommendation .....	1,624,820

The Committee recommends an additional increase of \$1,624,820 from local funds for two programs under this appropriation title. A total of \$1,000,000 is recommended for the Office of Business Services and Economic Development for the implementation of the District of Columbia New E-Conomy Transformation Act of 2000 to attract and foster growth of businesses involved in the development, production, distribution and sale of Internet-based and other communications technologies. The amount of \$624,820 is recommended for the Department of Consumer and Regulatory Affairs to help fund abatement and condemnation efforts of nuisance properties as required under section 5-513 of the D.C. Code.

PUBLIC SAFETY AND JUSTICE  
(INCLUDING RESCISSION)

2001 appropriation to date .....	\$596,442,000
2001 supplemental estimate .....	8,770,000
Committee recommendation .....	8,770,000

The Committee recommends a net increase of \$8,770,000 from local funds for several activities within this appropriation account. A total of \$2,800,000 is recommended for the Metropolitan Police Department consisting of \$2,000,000 to contribute to an arbitration award made to the members of the Fraternal Order of Police on April 11, 2000 and \$800,000 for the Metropolitan Police Department to cover the start-up costs of implementing the photo radar contract program. The Committee recommends \$5,940,000 for the Fire and Emergency Medical Services Department consisting of \$5,540,000 for back payments to compensate firefighters for a delay in implementing the program for firefighters to make pre-tax payments for pension and health and life insurance benefits, and \$400,000 to ease budget pressures on implementing the initiative to add a fifth firefighter on each truck. The Committee also recommends \$161,000 to establish the Child Fatality Review Committee as a distinct entity within the Office of the Chief Medical Examiner. The Committee also recommends the rescission of \$131,000 to the Taxicab Commission associated with transferring three full-time equivalent positions from the District back to the Taxicab Commission.

PUBLIC EDUCATION SYSTEM

2001 appropriation to date .....	\$1,037,127,000
2001 supplemental estimate .....	13,000,000
Committee recommendation .....	13,000,000

The Committee recommends an additional \$1,000,000 from local funds for the D.C. Public Schools and the D.C. Public Charter Schools to enter into contracts with firms to perform an independent audit of public school enrollment counts and residency verifications as required by D.C. Statute. The Committee also recommends an additional \$12,000,000 from local funds for the District of Columbia Public Schools to conduct the 2001 summer school session.

HUMAN SUPPORT SERVICES

2001 appropriation to date .....	\$632,649,000
2001 supplemental estimate .....	28,000,000
Committee recommendation .....	28,000,000

The Committee recommends an additional \$19,000,000 from local funds to address an increase in Medicaid enrollment, of which \$15,000,000 is for the Medicaid managed care program and \$4,000,000 for a local match to the disproportionate share to hospitals (DSH) program for uncompensated care. The Committee recommends \$3,000,000 for the Department of Employment Services for the Disability Compensation Fund to cover overrun costs for the Disability Compensation Fund, \$1,000,000 for the Office of Latino Affairs for educational program grants to Latino community-based

organizations, and \$5,000,000 for the Children Investment Trust to support the non-profit entity, the Children and Youth Investment Trust Corporation, to coordinate services and disburse funds to community organizations serving children.

PUBLIC WORKS

2001 appropriation to date .....	\$262,257,000
2001 supplemental estimate .....	131,000
Committee recommendation .....	131,000

The Committee recommends \$131,000 from local funds to transfer three full-time equivalent employees from the Metropolitan Police Department back to the D.C. Taxicab Commissions.

FINANCING AND OTHER USES

WORKFORCE INVESTMENTS

2001 appropriation to date .....	\$517,670,000
2001 supplemental estimate .....	40,500,000
Committee recommendation .....	40,500,000

The Committee recommends \$40,500,000 from local funds for the District government to cover labor compensation currently being renegotiated with collective bargaining units.

WILSON BUILDING

2001 appropriation to date .....	\$517,670,000
2001 supplemental estimate .....	7,100,000
Committee recommendation .....	7,100,000

The Committee recommends \$7,100,000 from local funds for the District to cover moving and operating costs to relocate various agencies to the John A. Wilson Building.

ENTERPRISE AND OTHER FUNDS

WATER AND SEWER AUTHORITY

2001 appropriation to date .....	\$230,614,000
2001 supplemental estimate .....	2,151,000
Committee recommendation .....	2,151,000

The Committee recommends an additional \$2,151,000 from Water and Sewer Authority funds for the Water and Sewer Authority to cover unanticipated costs associated with stormwater administration and implementing a public right-of-way fee.

CAPITAL OUTLAY

Additionally, the Committee recommends approval of the reallocation of \$4,850,000 in capital funds from inactive projects to renovation and preservation of building projects with historical significance. The dormant projects, totaling \$4,859,080, are: Electrical Modernization-Old Juvenile Court, \$2,650,000; Asbestos Abatement-Oak Hill Juvenile Court, \$525,000; Condition Assessments, \$159,080; Electrical Modernization-Various D.C. Facilities, \$1,000,000; Building Renovations-Old Juvenile Court, \$525,000. The six government buildings selected to be renovated, totaling

\$4,850,000, are: Recorder of Deeds at 5th and D Street, N.W., \$2,000,000; Old Navy Hospital at 921 Pennsylvania Avenue, S.E., \$400,000; Tivoli Theater at 14th Street and Park Road, N.W., \$1,000,000; 10th Precinct Building at 750 Park Road, N.W., \$450,000; Lamond Recreation Center, \$400,000; Riggs-Lasalle Recreation Center at 501 Riggs Road, N.W., \$400,000. The reallocation also includes \$200,000 for the program manager.

GENERAL PROVISION—THIS CHAPTER

SEC. 2301. *Report by the Mayor.* The Mayor of the District of Columbia shall provide the House and Senate Committees on Appropriations, the Senate Committee on Governmental Affairs and the House Committee on Government Reform with recommendations relating to the transition of responsibilities under Public Law 104-8, the District of Columbia Financial Responsibility and Management Act of 1995, at the earliest time practicable.

CHAPTER 4

SUBCOMMITTEE ON ENERGY AND WATER DEVELOPMENT

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

FLOOD CONTROL AND COASTAL EMERGENCIES

2001 appropriation to date .....	
2001 supplemental estimate .....	\$50,000,000
Committee recommendation .....	50,000,000

The Committee recommends an additional appropriation of \$50,000,000, the amount of the Administration's request, for the Flood Control and Coastal Emergencies program. The Committee shares the Administration's concern both that the Fund's balance is inadequate to meet the unanticipated and emergency needs that may occur during the remainder of fiscal year 2001, and that the practice of reprogramming into the Fund is not the most appropriate means to replenish the fund itself. Though the Committee has provided these supplemental funds, it strongly encourages the Corps to work with the Administration to address the future funding needs of this necessary activity.

DEPARTMENT OF ENERGY

ENERGY PROGRAMS

NON-DEFENSE ENVIRONMENTAL MANAGEMENT

2001 appropriation to date .....	\$277,200,000
2001 supplemental estimate .....	11,400,000
Committee recommendation .....	11,400,000

The Committee recommends an additional appropriation of \$11,400,000, the amount of the Administration's request, for Non-Defense Environmental Management.

The amount recommended by the Committee includes \$1,400,000 for a study to determine remediation options for clean-up of the former Atlas uranium mill tailings site near Moab, Utah; and \$10,000,000 for clean-up activities at the Brookhaven National Laboratory in New York.

URANIUM FACILITIES MAINTENANCE AND REMEDIATION

(TRANSFER OF FUNDS)

2001 appropriation to date .....	\$392,502,000
2001 supplemental estimate .....	18,000,000
Committee recommendation .....	18,000,000

The Committee recommends an additional appropriation of \$18,000,000 for Uranium Facilities Maintenance and Remediation. This recommendation, the amount of the Administration's request, is to be derived from the Uranium Enrichment Decontamination and Decommissioning Fund.

The amount recommended by the Committee is provided to accelerate clean-up activities at the gaseous diffusion plant in Paducah, Kentucky.

GENERAL PROVISION—THIS CHAPTER

SEC. 2401. The Committee has included a provision which allows the Bureau of Reclamation to accept prepayment of certain obligations.

CHAPTER 5

SUBCOMMITTEE ON FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS

BILATERAL ECONOMIC ASSISTANCE

AGENCY FOR INTERNATIONAL DEVELOPMENT

CHILD SURVIVAL AND DISEASE PROGRAMS FUND

(INCLUDING RESCISSION)

2001 appropriation to date .....	\$960,881,000
2001 supplemental estimate .....	
Committee recommendation:	
Supplemental .....	100,000,000
Rescission .....	- 10,000,000

The Committee recommends an additional \$100,000,000, representing an initial United States contribution to a global trust fund to combat HIV/AIDS, malaria, and tuberculosis. The Committee is concerned that HIV/AIDS has already claimed over 22,000,000 lives, that there are over 5,000,000 new HIV infections annually, and that a multilateral fund is widely recognized as urgently needed to leverage substantially greater public and private resources to mount an effective response to this growing international crisis. The Committee intends that in the event that a global trust fund is not established or is unable to utilize these funds effectively within a reasonable period of time, these funds shall be used to support bilateral HIV/AIDS, malaria, and tuber-

culosis programs administered by the Agency for International Development. The Committee also recommends a rescission of \$10,000,000 from unobligated balances of the fiscal year 2001 appropriation for the Child Survival and Disease Programs Fund. These funds were appropriated in fiscal year 2001 for a United States contribution to an international HIV/AIDS fund.

ECONOMIC SUPPORT FUND

2001 appropriations .....	\$2,289,951,000
2001 supplemental estimate .....	- 20,000,000
Committee recommendation .....	

The Committee recommendation does not include the cancellation of \$20,000,000 in fiscal year 2000 Economic Support Funds (ESF) proposed by the President. The Committee notes that there are many foreign assistance programs in Latin America, Asia and elsewhere which would be enhanced by the use of these funds. The Committee further notes that the ESF account is already \$55,549,000 below the fiscal year 2000 enacted level.

GENERAL PROVISION—THIS CHAPTER

SEC. 2501. The Committee has repealed the last proviso of section 526 of the Fiscal Year 2000 Foreign Operations, Export Financing, and Related Programs Appropriations Act, as amended, which earmarked \$1,000,000 in Economic Support Fund assistance for the Jamestown Foundation. These funds shall be provided through the National Endowment for Democracy for rule of law and democracy activities consistent with the authority of section 526 of Public Law 106-429.

CHAPTER 6

SUBCOMMITTEE ON THE INTERIOR AND RELATED AGENCIES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

(INCLUDING RESCISSIONS)

Language is included in the bill to permit completion of a wilderness study at Apostle Islands National Lakeshore, WI by the National Park Service. An amount of \$200,000 was provided in fiscal year 2001 to complete this study. Because the study will not be completed until fiscal year 2003, the Committee recommends extending the availability of these funds.

Language is included in the bill to extend the availability of funds provided in fiscal year 2001 for maintenance, protection and preservation of land in the Minuteman Missile National Historic Site, SD. The projects for which \$5,000,000 was made available to the National Park Service, through the Air Force operations and maintenance account, cannot be completed this fiscal year.

BUREAU OF INDIAN AFFAIRS  
 OPERATION OF INDIAN PROGRAMS  
 (INCLUDING TRANSFERS OF FUNDS)

2001 appropriation to date .....	\$1,738,579,000
2001 supplemental estimate .....	50,000,000
Committee recommendation .....	50,000,000

The Committee recommends \$50,000,000 for Operation of Indian Programs, as requested by the Administration, to allow for the repayment by the Bureau of Indian Affairs of funds previously borrowed from the land acquisition accounts of the Bureau of Land Management, the United States Fish and Wildlife Service, and the National Park Service.

In May 2001, the Secretary of the Interior used transfer authority provided in Section 102 of the Fiscal Year 2001 Interior and Related Agencies Appropriations Act, Public Law 106-291, to provide a total of \$41,000,000 to prevent the shutdown of the electric power operations of the San Carlos Irrigation Project (SCIP) in Arizona. The transfers are expected to cover the cost of power purchases for May through the end of August. The additional funds above the amount required for reimbursement are to ensure that there are sufficient funds to cover the cost of summer power requirements. The need for this funding is due to: (1) SCIP's regional linkage to the California power market and low western reservoirs, which contribute to high electricity prices; (2) the lack of alternative power providers in SCIP's service area, which leaves certain residents, such as diabetics on dialysis, vulnerable to illness or death should power be cut off; and (3) the inability of SCIP to obtain funding to purchase power by debt financing or other means. The loss of power would have a disastrous effect on the economy and human population of south-central Arizona.

The Department of the Interior is drafting legislation to authorize the divestiture of SCIP assets and the Administration hopes to proceed expeditiously. The Committee would encourage all parties to work together to make divestiture a top priority during the remainder of this congressional session.

RELATED AGENCY  
 DEPARTMENT OF AGRICULTURE  
 FOREST SERVICE  
 CAPITAL IMPROVEMENT AND MAINTENANCE  
 (INCLUDING RESCISSION)

Language is included in the bill extending the availability of previously appropriated funds for the purpose of road work.

GENERAL PROVISIONS—THIS CHAPTER

SEC. 2601. Authorizes the Bureau of Land Management to provide an estimated \$168,000 from unobligated balances in its land acquisition account for Oregon projects to fund land exchanges at Steens Mountain, OR. Amounts appropriated in the Fiscal Year

2001 Omnibus Consolidated Appropriations Act for land exchanges at Steens Mountain did not fully fund the amount necessary to complete the land exchanges authorized in the Steens Mountain Cooperative Management and Protection Act.

SEC. 2602. Corrects a Public Law reference in section 338 of the Interior and Related Agencies Appropriations Act for fiscal year 2001.

SEC. 2603. Modifies a provision in Public Law 106-558 in order to authorize the payment of full overtime rates for fire fighters in fiscal year 2001.

SEC. 2604. Permits the Forest Service to receive reimbursement for expenditures for projects that otherwise qualify for the use of Federal-aid Highways funds. Emergency relief for Federally owned roads is routinely made available to the Forest Service in the form of Federal-aid highways funds (Department of the Treasury account 12-69X8083). These monies provide critical funding for the repair of forest roads made necessary by storms, floods, and other natural occurrences. However, timely repair work is often needed prior to Federal-aid Highways funds being made available to the Forest Service by the Federal Highway Administration. This time lag in the provision of Federal-aid Highways funds necessitates the interim use of agency funds, which were budgeted specifically for other projects, to complete such repairs. The ability to reimburse accounts that were used to fund projects, which would otherwise qualify for the use of Federal-Aid Highways funds, is necessary to assure that both needed emergency repair work and regularly planned, budgeted, and approved projects are completed.

SEC. 2605. Requires that \$2,000,000 provided to the Forest Service in the Fiscal Year 2001 Appropriations Act be advanced as a direct lump sum payment to Ketchikan Public Utilities (KPU) in order to clear a right-of-way for the Swan Lake-Lake Tyee Intertie. The Committee is concerned that continued delay in initiating construction of the Intertie is harmful to the economy of Southeast Alaska and fails to promote the clean and efficient production of electricity.

SEC. 2606. Makes Section 122 of Public Law 106-291 permanent.

SEC. 2607. Makes permanent Section 351 of Public Law 105-277 regarding the provision of health care services to Alaska Natives.

CHAPTER 7

SUBCOMMITTEE ON LABOR, HEALTH AND HUMAN SERVICES, AND  
EDUCATION AND RELATED AGENCIES

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING RESCISSIONS)

2001 appropriation to date .....	\$5,670,805,000
2001 supplemental estimate .....	
Committee recommendation:	
Supplemental .....	45,000,000
Rescission .....	-262,500,000

The Committee recommends a supplemental and offsetting rescission in response to a reprogramming request submitted by the Administration to move \$45,000,000 from Youth Opportunity Grants (\$25,000,000) and Safe Schools/Healthy Students (\$20,000,000) to Youth Activities, both as authorized by the Workforce Investment Act and funded in the Department of Labor's Training and Employment Services account. The Committee does not believe that a reprogramming is the appropriate method of moving funds between these programs, most amounts for which were stipulated in bill language, nor is a transfer allowable in light of the magnitude of the funds involved. The Committee does believe that it is appropriate to move the funds, however, and in order to respond to the Administration's request, provides a supplemental and corresponding rescission in order to accomplish the intended purpose. The remaining reprogramming action requested by the Administration moving \$20,000,000 from Incumbent Workers to Responsible Reintegration for Young offenders is approved.

In addition, the Committee recommends rescission of \$217,500,000 in consideration of high levels of unexpended Dislocated Worker Employment Training Activities funds resulting from the transition from the Job Training Partnership Act to the Workforce Investment Act. Of the amount rescinded, \$57,500,000 is from the National Reserve and \$160,000,000 is from the formula program. In order to assure that rescinded formula amounts are taken from States with the highest unexpended balances, the Committee has included bill language to ensure that States that do not have excess unexpended balances are not impacted, to the extent possible, by this rescission. The bill language permits the Secretary to determine the amount of excess unexpended balances based on final State reports as of June 30, 2001. It is the intent of this bill language to restore, as much as possible, the reduction of this rescission to those States that are spending on an acceptable basis. The Secretary shall give special consideration for funding requests under National Emergency Grants from States on behalf of local areas which have expended their formula grants and require additional funds to provide reemployment assistance to dislocated workers. If startup problems are resolved and unexpended balances reduced, the Committee will reconsider the program's funding level as part of its fiscal year 2002 deliberations. The Committee remains strongly supportive of the Workforce Investment Act Dislocated Worker program, and intends to carefully monitor the need for enhanced job training services, recognizing that at a time of economic slowdown, the workforce system will play an even more vital role in retraining our workers to compete in the global economy.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### HEALTH RESOURCES AND SERVICES ADMINISTRATION

#### HEALTH RESOURCES AND SERVICES

The Committee has transferred \$1,500,000 from the health facilities construction and renovation account to the rural health out-

reach grant program. These funds are to be used to support the Children's Health Fund.

The Committee has included technical language clarifying that \$900,000 previously appropriated for Northeastern University in Boston, Massachusetts is to be used to train allied health care professionals to serve in low-income areas.

The funding previously appropriated for construction and renovation of Scripps Memorial East County Hospital in El Cajon, California shall be divided equally between Sharps Grossmont Hospital, located in San Diego County and El Centro Regional Medical Center, located in Imperial County.

NATIONAL INSTITUTES OF HEALTH

(TRANSFER OF FUNDS)

With the enactment of the National Institute of Biomedical Imaging and Bioengineering Establishment Act of 2000, and subsequent establishment of the new institute, bill language is necessary to allow transfer of funds from the Office of the Director, National Institutes of Health to the National Institute of Biomedical Imaging and Bioengineering to fund activities associated with the program planning and start-up activities of the new institute.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

2001 appropriations to date .....	\$2,958,001,000
2001 supplemental estimate .....	
Committee recommendation .....	6,500,000

The Committee recommends a supplemental of \$6,500,000 for St. Elizabeths Hospital. These funds include \$5,500,000 for the estimated cost of mothballing and stabilization to prevent further deterioration of the buildings on the St. Elizabeths West Campus during an extended period while excessing, reuse planning, and disposition take place. An additional \$1,000,000 will pay for day to day protection and maintenance costs.

ADMINISTRATION FOR CHILDREN AND FAMILIES

LOW INCOME HOME ENERGY ASSISTANCE

2001 appropriation to date .....	\$1,700,000,000
2001 supplemental estimate .....	150,000,000
Committee recommendation .....	300,000,000

The Committee recommends an additional \$300,000,000 for the Low Income Home Energy Assistance Program (LIHEAP). The Administration requested a supplemental of \$150,000,000. When combined with the \$1,400,000,000 already appropriated for fiscal year 2001, and \$300,000,000 in emergency funding which had already been utilized, a total of \$2,000,000,000 is provided in appropriations for fiscal year 2001.

The additional funding is intended to serve as a reserve to provide home energy assistance to low-income households in the event of natural disasters or other emergencies. Bill language extends availability of the funds until expended.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The Committee recommends that a technical correction be made in the statement of the managers accompanying the Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriations Act, 2001. Under the Administration for Children and Families, the statement recommends that \$550,000 be made available for an Early Childhood Development Center at "Texas Tech University". The entity receiving the funds should have read "Texas A&M University at Corpus Christi".

DEPARTMENT OF EDUCATION

EDUCATION REFORM

The Committee recommendation includes bill language which makes a technical correction related to a project specified in the statement of the managers on the conference report accompanying the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2001.

EDUCATION FOR THE DISADVANTAGED

TITLE I GRANTS TO LOCAL EDUCATIONAL AGENCIES

2001 appropriation to date .....	\$8,601,721,000
2001 supplemental estimate .....	
Committee recommendation .....	161,000,000

The Committee recommendation includes an additional \$161,000,000 for the Title I grants to local educational agencies program. The Administration did not request a supplemental appropriation for this program. This supplemental appropriation is required to meet the additional program costs associated with updated poverty and expenditure data that became available in January 2001.

It is the intent of the Committee that, when taken together with the technical correction to the basic grants amount included in bill language under this heading, these additional resources will result in a final fiscal year 2001 appropriation of \$7,397,971,000 for basic grants and \$1,364,750,000 for concentration grants (\$8,762,721,000.) The Committee further intends that these additional resources will be used to provide each State and local educational agency the greater of either the amount it would receive at base levels specified in the conference report to accompany H.R. 4577 under the 100-percent hold harmless or what it would receive using the statutory formulas. The technical correction made to the appropriation for this program and the additional resources made available by this supplemental appropriations act shall take effect as if included in Public Law 106-554 on the date of its enactment.

IMPACT AID

The Committee recommendation includes bill language which requires that \$6,000,000 appropriated under this heading for construction activities be distributed by the formula authorized in section 8007 of the Elementary and Secondary Education Act, as in effect on September 30, 2000. The remaining appropriation of

\$6,802,000 for construction activities should be used in accordance with the language under this heading in the statement of the managers on the conference report accompanying the Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriations Act, 2001.

SPECIAL EDUCATION

The Committee recommendation includes bill language which makes a technical correction related to a project specified in the statement of the managers on the conference report accompanying the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2001.

EDUCATION RESEARCH, STATISTICS, AND IMPROVEMENT

The Committee recommendation includes bill language which makes technical corrections related to the amount of funding available for projects specified in the statement of the managers on the conference report accompanying the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2001. The Committee recommendation also includes bill language which makes a technical correction related to a project specified in the statement of the managers.

GENERAL PROVISION—THIS CHAPTER

SEC. 2701. The Committee has included bill language to clarify the intent of the Congress with regard to funding provided pursuant to section 117 of the Carl D. Perkins Vocational and Technical Education Act of 1998 (Perkins III). Funding available for this section is intended to be provided only to tribal colleges that do not receive Federal support under the Tribally Controlled Community College or University Assistance Act of 1978 or the Navajo Community College Act and whose primary purpose is to provide full-time technical and vocational educational programs to American Indian students. This language is necessary due to the Administration's new interpretation of this provision of the Perkins Act.

CHAPTER 8

SUBCOMMITTEE ON THE LEGISLATIVE BRANCH

LEGISLATIVE BRANCH

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

2001 appropriation to date .....	\$768,497,000
2001 supplemental estimate .....	61,662,000
Committee recommendation .....	

The Committee has deferred without prejudice, the request of \$61,662,000 for the House of Representatives Salaries and Expenses.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

2001 appropriation to date .....	\$1,816,000
2001 supplemental estimate .....	35,000
Committee recommendation .....	35,000

The Committee recommends the request of \$35,000 for the Office of Compliance. These funds are needed owing to an unforeseen controversy involving almost 400 covered employees, each of whom is entitled to counseling and mediation services under section 403 of the Congressional Accountability Act. The amount includes \$45,000 for mediation services, offset by decreases of \$8,000 in supplies and \$2,000 in rent, communications and utilities. Without the supplemental appropriation, the Office of Compliance could be forced to stop all contracted health and safety inspections for the balance of the fiscal year.

ARCHITECT OF THE CAPITOL

The Committee notes that the Architect of the Capitol (AOC) has requested authority to increase the level of compensation for the Architect and certain key AOC staff. The Committee believes that, before approving such a request, a general management review of the AOC operations would be helpful in evaluating and determining appropriate levels of compensation for AOC management. This management review should include an overall assessment of the agency's organizational structure, strategic planning, skills, staffing, systems, accountability reporting, and execution of its statutory and assigned responsibilities. The Committee directs that the General Accounting Office (GAO) lead this review, in consultation and coordination with the Architect of the Capitol, building upon earlier management reviews, and consider best practices in its evaluation and recommendations. The GAO report should include recommendations for enhancing the overall effectiveness and efficiency of AOC operations along with recommendations as to how to implement such improvements. GAO should report the results of its review to the House and Senate Committees on Appropriations, the Committee on House Administration, and the Senate Committee on Rules and Administration no later than April, 2002.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

2001 appropriation to date .....	\$71,305,000
2001 supplemental estimate .....	9,900,000
Committee recommendation .....	9,900,000

The Committee recommends the budget request of \$9,900,000 for Congressional printing and binding. These funds will replenish a shortfall in the Congressional Printing and Binding appropriation based on work requirements in fiscal year 2000.

## GOVERNMENT PRINTING OFFICE REVOLVING FUND

2001 appropriation to date .....	
2001 supplemental estimate .....	\$6,000,000
Committee recommendation .....	6,000,000

The Committee recommends the budget request of \$6,000,000 for the GPO revolving fund. These funds are needed to cover the cost of improvements to GPO's air conditioning and lighting systems. The chillers used in the air conditioning system are in critical need of replacement and are at a high risk of failure.

## GENERAL ACCOUNTING OFFICE

## SALARIES AND EXPENSES

2001 appropriation to date .....	\$387,020,000
2001 supplemental estimate .....	2,600,000
Committee recommendation .....	

The Committee does not recommend \$2,600,000 for GAO's responsibilities under the Truth in Regulating Act of 2000. The Committee does not believe initiating this program is an urgent need at this time.

## GENERAL PROVISIONS—THIS CHAPTER

SEC. 2801. The Committee recommends a provision authorizing one consultant for the President pro tempore emeritus.

SEC. 2802. The Abraham Lincoln Bicentennial Commission Act is amended to shift the role of providing administrative support to the Commission from the General Services Administration to the Library of Congress, and to clarify that the anticipated support services include disbursing Commission funds and computing and disbursing the pay of Commission personnel. The particular services to be rendered will be specified in an agreement between the Commission and the Library established under the Economy Act, 31 U.S.C. 1535.

## CHAPTER 9

## SUBCOMMITTEE ON TRANSPORTATION AND RELATED AGENCIES

## DEPARTMENT OF TRANSPORTATION

## COAST GUARD

## OPERATING EXPENSES

2001 appropriation to date .....	\$3,185,033,000
2001 supplemental estimate .....	92,000,000
Committee recommendation .....	92,000,000

The Committee recommendation includes an additional \$92,000,000 for Coast Guard operating expenses for fiscal year 2001, the same as the Administration's request. These funds are provided to compensate the Coast Guard for higher-than-expected military pay and entitlement costs, energy costs, aviation maintenance expenditures, and costs associated with the deployment of a Port Security Unit (PSU) to the Middle East. In order to cover

these costs, the Coast Guard has been required to divert funding from aircraft and vessel maintenance activities as well as critical unit level operations including fisheries enforcement patrols. The funds provided will be used to restore these activities. The Committee understands that the deployment of the PSU, which will conclude at the end of June, has resulted in a degradation of funding available for these critical unit level operations. The Committee understands that no additional deployments will take place for this mission within this fiscal year except through reimbursable agreement. Consistent with the Administration's request, an additional \$6,000,000 is provided in Title I of this bill to compensate the Coast Guard for TRICARE contract price adjustments.

FEDERAL HIGHWAY ADMINISTRATION

FEDERAL-AID HIGHWAYS

(HIGHWAY TRUST FUND)

(RESCISSION OF CONTRACT AUTHORIZATION)

2001 appropriation to date .....	
2001 supplemental estimate .....	
Committee recommendation .....	(-\$10,000,000)

The Committee recommendation includes a rescission of contract authority totaling \$10,000,000 from funds authorized to be appropriated in surface transportation legislation enacted in June 1975 (Public Law 94-280), March 1978 (Public Law 95-599), April 1982 (Public Law 97-424) and January 1987 (Public Law 100-17). These funds are to be derived from individual surface transportation projects that have been completed but have small amounts of unspent contract authority remaining.

GENERAL PROVISION—THIS CHAPTER

SEC. 2901. The Committee recommendation includes a provision clarifying the use of funds appropriated for fiscal years 1999 and 2000 for bus and bus-related facilities within the State of New Mexico.

CHAPTER 10

SUBCOMMITTEE ON TREASURY AND GENERAL GOVERNMENT

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

2001 appropriation to date .....	\$162,381,000
2001 supplemental estimate .....	60,601,000
Committee recommendation .....	59,956,000

The Committee recommends an appropriation of \$59,956,000 to reimburse any agency of the Department of the Treasury or other Federal agency for costs associated with providing operational and

perimeter security at the 2002 Winter Olympics in Salt Lake City, Utah. The Committee understands that the departments and agencies estimate their reimbursement costs to be as follows: Department of the Treasury, Bureau of Alcohol, Tobacco and Firearms, \$10,523,000; U.S. Customs Service, \$18,744,000; United States Secret Service, \$19,530,000; Financial Crimes Enforcement Network, \$58,000; Internal Revenue Service, \$2,729,000; Treasury Office of Enforcement, \$40,000; Treasury Inspector General for Tax Administration, \$334,000; Department of Agriculture, U.S. Forest Service, \$1,300,000; Department of Interior, National Park Service, \$1,300,000; U.S. Bureau of Land Management, \$312,000; U.S. Fish and Wildlife Service, \$195,000; Department of Justice, \$4,891,000. The Committee requests notification prior to any modifications in the proposed spending plan.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

2001 appropriation to date .....	\$206,396,000
2001 supplemental estimate .....	49,576,000
Committee recommendation .....	49,576,000

The Committee recommends an appropriation of \$49,576,000 for the Financial Management Service to implement a tax rate reduction credit as specified in section 101 of the Economic Growth and Tax Relief Reconciliation Act of 2001. The funding supports the purchase of check stock and other related paper supplies, as well as postage and other costs associated with processing and mailing tax rate reduction credit checks to taxpayers.

INTERNAL REVENUE SERVICE

PROCESSING, ASSISTANCE, AND MANAGEMENT

2001 appropriation to date .....	\$3,601,474,000
2001 supplemental estimate .....	66,200,000
Committee recommendation .....	66,200,000

The Committee recommends an appropriation of \$66,200,000 for the Internal Revenue Service to implement a tax rate reduction credit as specified in section 101 of the Economic Growth and Tax Relief Reconciliation Act of 2001. The funding supports advance mailings to taxpayers of the tax rate reduction credit schedule as well as related customer service and account reconciliation activities.

GENERAL PROVISION—THIS CHAPTER

SEC. 21001. The Committee recommendation includes a technical correction to Section 413 of H.R. 5658, as incorporated by reference in Public Law 106-554, designating the recently-completed classroom building constructed at the Core Campus of the Federal Law Enforcement Training Center in Glynco, Georgia, as the “Paul Coverdell Building”.

## CHAPTER 11

SUBCOMMITTEE ON VETERANS AFFAIRS AND HOUSING AND URBAN  
DEVELOPMENT, AND INDEPENDENT AGENCIES

## DEPARTMENT OF VETERANS AFFAIRS

## VETERANS BENEFITS ADMINISTRATION

## COMPENSATION AND PENSIONS

2001 appropriation to date .....	\$22,766,276,000
2001 supplemental estimate .....	589,413,000
Committee recommendation .....	589,413,000

The Committee supports a \$589,413,000 increase in the statutory limit of \$22,766,276,000 to assure payment to veterans and their families of mandatory disability compensation and pension benefits enacted in law after the 2001 Appropriations Act. Absent this adjustment, there may be insufficient funds to pay all of these mandatory benefits for the remainder of the current fiscal year.

Of the increased amount provided, \$523,000,000 is provided for the 3.5 percent benefit increase for veterans with service-connected disabilities and survivors of certain disabled veterans required in the Veterans Compensation Cost-of-Living Adjustment Act of 2000 (Public Law 106-413); \$12,000,000 is provided to meet the additional benefit costs of program enhancements afforded under the Veterans Benefits and Health Care Improvement Act of 2000 (Public Law 106-419); \$17,000,000 is provided for the costs arising from the addition of diabetes to the list of diseases covered in the Agent Orange Act of 1991 (Public Law 102-4); and \$38,000,000 is provided for rate adjustments authorized in the Omnibus Consolidated Appropriations Act, 2000 (Public Law 106-554) due to the Consumer Price Index computation error of 1999.

## READJUSTMENT BENEFITS

2001 appropriation to date .....	\$1,634,000,000
2001 supplemental estimate .....	347,000,000
Committee recommendation .....	347,000,000

The Committee supports a \$347,000,000 increase in the statutory limit of \$1,634,000,000 to assure payment of mandatory increases in Montgomery GI Bill (MGIB) and related benefits enacted in law after the 2001 Appropriations Act. Absent this adjustment, there may be insufficient funds to pay all of these mandatory benefits for the remainder of the current fiscal year.

The Floyd D. Spence National Defense Authorization Act for fiscal year 2001 (Public Law 106-419) expanded educational and related assistance programs for active-duty personnel, veterans, and their families. Of the increased amount provided to assure payment of: a 21 percent increase in the basic full-time education monthly benefit rates under MGIB from \$552 to \$650, which became effective November 1, 2000; an increase in monthly rates for survivors and dependents education assistance from \$485 to \$588, which became effective November 1, 2000; and a change allowing up to \$2,000 per person for licensing and certification testing under MGIB, which became effective March 1, 2001.

VETERANS HEALTH ADMINISTRATION  
 MEDICAL AND PROSTHETIC RESEARCH

The Committee recognizes that the VA research program must undertake a certain level of travel to properly optimize the function of this worthwhile program and agrees to increase the current understated fiscal year 2001 travel limitation of \$2,500,000 to \$3,500,000.

DEPARTMENTAL ADMINISTRATION  
 GENERAL OPERATING EXPENSES  
 (TRANSFER OF FUNDS)

2001 appropriation to date .....	\$1,047,690,000
2001 supplemental estimate .....	(19,000,000)
Committee recommendation .....	(19,000,000)

The Committee is supportive of VBA's efforts to solve the mounting claims problem by hiring and training additional claims adjudicators immediately. Due to enactment of the Veterans Claims Assistance Act of 2000 (Public Law 106-475) and the addition of diabetes to the list of diseases associated with exposure to certain herbicide agents, as provided by the Agent Orange Act of 1991 (Public Law 102-4), more than 450,000 claims would be added to the processing workload. Pending workloads and processing timeliness would degrade to unacceptable levels without the ability to hire and train personnel in 2001 to process this additional workload.

The Committee therefore agrees to transfer not more than \$19,000,000 from Medical Care to General Operating Expenses (GOE) to provide funding for additional operating expenses for claims processing in the VBA. These funds will assist in the hiring and training of approximately 400 personnel. The Committee also agrees to increase the travel limitation in fiscal year 2001 by \$3,500,000 more than originally requested to support training efforts. The new GOE travel limitation would be \$17,500,000 for fiscal year 2001.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT  
 COMMUNITY PLANNING AND DEVELOPMENT  
 COMMUNITY DEVELOPMENT FUND  
 (INCLUDING RESCISSION)

The Committee includes bill language that makes a correction to the Community Development Fund account in Public Law 106-377 to make all funds, except for the funds that support the costs associated with section 108 loan guarantees, available for obligation through September 30, 2003.

The Committee also includes bill language to make a technical correction to clarify the allowable use of \$350,000 previously appropriated for Rio Arriba County, New Mexico.

## FEDERAL HOUSING ADMINISTRATION

## FHA—MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

## (TRANSFER OF FUNDS)

2001 appropriation to date .....	\$330,160,000
2001 supplemental estimate .....	(8,000,000)
Committee recommendation .....	(8,000,000)

The Committee recommendation includes bill language to allow the Department of Housing and Urban Development (HUD) to use fiscal year 2001 funds for a corrective action in response to a probable fiscal year 2000 violation of the Anti-Deficiency Act which occurred during the prior HUD Administration. The proposed language would not provide any additional resources to correct the deficiency, but grant HUD flexibility to pay the obligation and accrued interest using funds appropriated to both FHA administrative accounts and to the HUD general salaries and expense account.

## FHA—GENERAL AND SPECIAL RISK PROGRAM ACCOUNT

2001 appropriation to date .....	\$101,000,000
2001 supplemental estimate .....	40,000,000
Committee recommendation .....	

The Committee includes bill language to remove limitations from the \$40,000,000 in credit subsidy previously appropriated in Public Law 106–554, rather than providing an additional appropriation as proposed by the Administration. The Committee’s recommendation will allow FHA to resume guarantees of all multi-family loans meeting underwriting criteria through the remainder of this fiscal year.

The Committee also recommends that the Department of Housing and Urban Development (HUD) apportion these funds to remain available for the remainder of the year and to allocate no more than 10 percent of these funds for section 221(d)(3) projects. The Committee notes that HUD has experienced unusual growth in this program in the past year that is not consistent with the historical average for this program. The Committee is concerned that unusual growth in the 221(d)(3) program may limit the availability of funds for other multi-family programs. Therefore, the Committee recommends a limitation to ensure that the administration of the credit subsidy program is consistent with past patterns and practices.

## INDEPENDENT AGENCIES

## ENVIRONMENTAL PROTECTION AGENCY

## STATE AND TRIBAL ASSISTANCE GRANTS

The Committee includes bill language to make a technical correction to clarify the allowable use of \$1,000,000 previously appropriated for Beloit, Wisconsin.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

## HUMAN SPACE FLIGHT

The Committee has included bill language to remove a restriction placed on previously appropriated funds to cover the costs of conducting scientific research aboard Shuttle mission STS-107. The fiscal year 2000 Department of Veterans Affairs, Housing and Urban Development Appropriations Act (Public Law 106-74) provided \$40,000,000 in the Human Space Flight account for Shuttle mission R-2, dedicated to life and micro-gravity science. However, NASA has been forced to delay the proposed R-2 mission due to delays in overhauling the Shuttle Columbia and the need to conduct the Hubble Telescope servicing mission.

The language included by the Committee would broaden the use of the R-2 funds allowing for life and micro-gravity research on STS-107 with the remainder dedicated for Space Station research in fiscal year 2001. The Committee expects NASA to consult with the Congress on options for the research planned for the R-2 mission in the broader context of the future funding required to support Space Station research.

### TITLE III—GENERAL PROVISIONS

SEC. 3001. The Committee also recommends language limiting the availability of funds in the bill to the current fiscal year unless otherwise expressly provided.

SEC. 3002. The Committee has included language providing an additional \$1,700,000 for the U.S.-China Security Review Commission. This will enable the Commission to be fully staffed through calendar year 2002 and will provide for necessary administrative support costs.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI OF THE  
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify, with particularity, each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

The accompanying bill contains the following items which lack authorization:

In title I:

Chapter 2: Department of Defense, \$5,824,700,000.

Chapter 4: Department of Defense: Military Construction, Air Force, \$18,000,000.

In title II:

Chapter 7: Department of Education: Education for the Disadvantaged, \$161,000,000.

Chapter 9: Department of Transportation: Coast Guard, operating expenses, \$92,000,000.

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI OF THE  
STANDING RULES OF THE SENATE

Paragraph 12 of rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include “(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee.”

In compliance with this rule, the following changes in existing law proposed to be made by the bill are shown as follows: existing law to be omitted is enclosed in black brackets; new matter is printed in Italics; and existing law in which no change is proposed is shown in Roman.

**TITLE 2—THE CONGRESS**

\* \* \* \* \*

**CHAPTER 4—OFFICERS AND EMPLOYEES OF SENATE  
AND HOUSE OF REPRESENTATIVES**

\* \* \* \* \*

**Sec. 61h-6. Appointment of consultants by Majority Leader, Minority Leader, Secretary of Senate, and Legislative Counsel of Senate; compensation**

(a) The Majority Leader and the Minority Leader, are each authorized to appoint and fix the compensation of not more than four individual consultants, on a temporary or intermittent basis, at a daily rate of compensation not in excess of the per diem equivalent of the highest gross rate of annual compensation which may be paid to employees of a standing committee of the Senate. The President pro tempore of the Senate is authorized to appoint and fix the compensation of one consultant, on a temporary or intermittent basis, at a daily rate of compensation not in excess of that specified in the first sentence of this subsection. *The President pro tempore emeritus of the Senate is authorized to appoint and fix the compensation of one individual consultant, on a temporary or intermittent basis, at a daily rate of compensation not in excess of that specified in the first sentence of this subsection.* The Secretary of the Senate is authorized to appoint and fix the compensation of not more than two individual consultants, on a temporary or intermittent basis, at a daily rate of compensation not in excess of the per diem equivalent of the highest gross rate of annual compensation which may be paid to employees of a standing committee of the Senate. The Legislative Counsel of the Senate (subject to the approval of the President pro tempore) is authorized to appoint and fix the compensation of not more than two consultants, on a temporary or intermittent basis, at a daily rate of compensation not in excess of that specified in the first sentence of this section. The provisions of sections 8344 and 8468 of title 5 shall not apply to any individual serving in a position under this authority. Expenditures under this authority shall be paid from the contingent fund of the Senate upon vouchers approved by the President pro tempore, *President pro tempore emeritus*, Majority Leader, Minority Leader, Secretary of the Senate, or Legislative Counsel of the Senate, as the case may be.

(b) Any or all appointments under this section may be at an annual rate of compensation rather than at a daily rate of compensation, but such annual rate shall not be in excess of the highest gross rate of annual compensation which may be paid to employees of a standing committee of the Senate.

APPENDIX A—H.R. 5656

\* \* \* \* \*

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

For carrying out titles II, III, VII, VIII, X, XII, XIX, and XXVI of the Public Health Service Act, section 427(a) of the Federal Coal Mine Health and Safety Act, title V and section 1820 of the Social Security Act, the Health Care Quality Improvement Act of 1986, as amended, the Native Hawaiian Health Care Act of 1988, as amended, and the Poison Control Center Enhancement and Awareness Act, \$5,525,476,000, of which ~~[\$226,224,000]~~ \$224,724,000 shall be

available for the construction and renovation of health care and other facilities, and of which \$25,000,000 from general revenues, notwithstanding section 1820(j) of the Social Security Act, shall be available for carrying out the Medicare rural hospital flexibility grants program under section 1820 of such Act: *Provided*, That the Division of Federal Occupational Health may utilize personal services contracting to employ professional management/administrative and occupational health professionals: *Provided further*, That of the funds made available under this heading, \$250,000 shall be available until expended for facilities renovations at the Gillis W. Long Hansen's Disease Center: *Provided further*, That in addition to fees authorized by section 427(b) of the Health Care Quality Improvement Act of 1986, fees shall be collected for the full disclosure of information under the Act sufficient to recover the full costs of operating the National Practitioner Data Bank, and shall remain available until expended to carry out that Act: *Provided further*, That fees collected for the full disclosure of information under the "Health Care Fraud and Abuse Data Collection Program," authorized by section 1128E(d)(2) of the Social Security Act, shall be sufficient to recover the full costs of operating the program, and shall remain available until expended to carry out that Act: *Provided further*, That no more than \$5,000,000 is available for carrying out the provisions of Public Law 104-73: *Provided further*, That of the funds made available under this heading, \$253,932,000 shall be for the program under title X of the Public Health Service Act to provide for voluntary family planning projects: *Provided further*, That amounts provided to said projects under such title shall not be expended for abortions, that all pregnancy counseling shall be non-directive, and that such amounts shall not be expended for any activity (including the publication or distribution of literature) that in any way tends to promote public support or opposition to any legislative proposal or candidate for public office: *Provided further*, That \$589,000,000 shall be for State AIDS Drug Assistance Programs authorized by section 2616 of the Public Health Service Act: *Provided further*, That of the amount provided under this heading, \$700,000 shall be for the American Federation of Negro Affairs Education and Research Fund of Philadelphia, \$900,000 shall be for the Des Moines University Osteopathic Medical Center, \$250,000 shall be for the University of Alaska, Anchorage, to train Alaska Natives as psychologists, \$900,000 shall be for Northeastern University in Boston, Massachusetts to train **[doctors]** *allied health care professionals* to serve in low-income communities, \$500,000 shall be for the University of Alaska, Anchorage, to recruit and train nurses in rural areas, and \$230,000 shall be for the Illinois Poison Center: *Provided further*, That, notwithstanding section 502(a)(1) of the Social Security Act, not to exceed \$113,728,000 is available for carrying out special projects of regional and national significance pursuant to section 501(a)(2) of such Act, of which \$5,000,000 is for Columbia Hospital for Women Medical Center in Washington, D.C., to support community outreach programs for women, \$5,000,000 is for continuation of the traumatic brain injury State demonstration projects, and \$100,000 is for St. Joseph's

Health Services of Rhode Island for the Providence Smiles dental program for low-income children.

\* \* \* \* \*

TITLE III—DEPARTMENT OF EDUCATION

\* \* \* \* \*

EDUCATION FOR THE DISADVANTAGED

For carrying out title I of the Elementary and Secondary Education Act of 1965, and section 418A of the Higher Education Act of 1965, \$9,532,621,000, of which \$2,731,921,000 shall become available on July 1, 2001, and shall remain available through September 30, 2002, and of which \$6,758,300,000 shall become available on October 1, 2001 and shall remain available through September 30, 2002, for academic year 2001–2002: *Provided*, That **[\$7,332,721,000]** \$7,237,721,000 shall be available for basic grants under section 1124: *Provided further*, That \$225,000,000 of these funds shall be allocated among the States in the same proportion as funds are allocated among the States under section 1122, to carry out section 1116(c): *Provided further*, That 100 percent of these funds shall be allocated by states to local educational agencies for the purposes of carrying out section 1116(c): *Provided further*, That all local educational agencies receiving an allocation under the preceding proviso, and all other local educational agencies that are within a State that receives funds under part A of title I of the Elementary and Secondary Education Act of 1965 (other than a local educational agency within a State receiving a minimum grant under section 1124(d) or 1124A(a)(1)(B) of such Act), shall provide all students enrolled in a school identified under section 1116(c) with the option to transfer to another public school within the local educational agency, including a public charter school, that has not been identified for school improvement under section 1116(c), unless such option to transfer is prohibited by State law, or local law, which includes school board-approved local educational agency policy: *Provided further*, That if the local educational agency demonstrates to the satisfaction of the State educational agency that the local educational agency lacks the capacity to provide all students with the option to transfer to another public school, and after giving notice to the parents of children affected that it is not possible, consistent with State and local law, to accommodate the transfer request of every student, the local educational agency shall permit as many students as possible (who shall be selected by the local educational agency on an equitable basis) to transfer to a public school that has not been identified for school improvement under section 1116(c): *Provided further*, That up to \$3,500,000 of these funds shall be available to the Secretary on October 1, 2000, to obtain updated local educational agency level census poverty data from the Bureau of the Census: *Provided further*, That \$1,364,000,000 shall be available for concentration grants under section 1124A: *Provided further*, That grant awards under sections 1124 and 1124A of title I of the Elementary and Secondary Education Act of 1965 shall be not less than the greater of 100 percent of the amount each State and local educational

agency received under this authority for fiscal year 2000 or the amount such State and local educational agency would receive if \$6,883,503,000 for Basic Grants and \$1,222,397,000 for Concentration Grants were allocated in accordance with section 1122(c)(3) of title I: *Provided further*, That notwithstanding any other provision of law, grant awards under section 1124A of title I of the Elementary and Secondary Education Act of 1965 shall be made to those local educational agencies that received a Concentration Grant under the Department of Education Appropriations Act, 2000, but are not eligible to receive such a grant for fiscal year 2001: *Provided further*, That the Secretary shall not take into account the hold harmless provisions in this section in determining State allocations under any other program administered by the Secretary in any fiscal year: *Provided further*, That \$8,900,000 shall be available for evaluations under section 1501 and not more than \$8,500,000 shall be reserved for section 1308, of which not more than \$3,000,000 shall be reserved for section 1308(d): *Provided further*, That \$210,000,000 shall be available under section 1002(g)(2) to demonstrate effective approaches to comprehensive school reform to be allocated and expended in accordance with the instructions relating to this activity in the statement of the managers on the conference report accompanying Public Law 105-78 and in the statement of the managers on the conference report accompanying Public Law 105-277: *Provided further*, That in carrying out this initiative, the Secretary and the States shall support only approaches that show the most promise of enabling children served by title I to meet challenging State content standards and challenging State student performance standards based on reliable research and effective practices, and include an emphasis on basic academics and parental involvement.

\* \* \* \* \*

#### EDUCATION RESEARCH, STATISTICS, AND IMPROVEMENT

For carrying out activities authorized by the Educational Research, Development, Dissemination, and Improvement Act of 1994, including part E; the National Education Statistics Act of 1994, including sections 411 and 412; section 2102 of title II, parts A, B, K, and L and sections 10102 and 10601 of title X, and part C of title XIII of the Elementary and Secondary Education Act of 1965, as amended, and title VI of Public Law 103-227, \$732,721,000: *Provided*, That of the funds appropriated for part A of title X of the Elementary and Secondary Education Act of 1965, as amended, \$5,000,000 shall be made available for a high school reform program of grants to State educational agencies to improve academic performance and provide technical skills training: *Provided further*, That of the funds appropriated for part A of title X of the Elementary and Secondary Education Act of 1965, as amended, \$5,000,000 shall be made available to carry out part L of title X of the Act: *Provided further*, That of the amount available for part A of title X of the Elementary and Secondary Education Act of 1965, as amended, \$5,000,000 shall be available for grants to State and local educational agencies, in collaboration with other agencies and organizations, for school dropout prevention programs

designed to address the needs of populations or communities with the highest dropout rates: *Provided further*, That of the amount made available for part A of title X of the Elementary and Secondary Education Act of 1965, as amended, \$50,000,000 shall be made available to enable the Secretary of Education to award grants to develop, implement, and strengthen programs to teach American history (not social studies) as a separate subject within school curricula: *Provided further*, That \$53,000,000 of the amount available for the national education research institutes shall be allocated notwithstanding section 912(m)(1)(B–F) and subparagraphs (B) and (C) of section 931(c)(2) of Public Law 103–227 and \$20,000,000 of that \$53,000,000 shall be made available for the Interagency Education Research Initiative: *Provided further*, That of the funds appropriated for part A of title X of the Elementary and Secondary Education Act, as amended, \$50,000,000 shall be available to demonstrate effective approaches to comprehensive school reform, to be allocated and expended in accordance with the instructions relating to this activity in the statement of managers on the conference report accompanying Public Law 105–78 and in the statement of the managers on the conference report accompanying Public Law 105–277: *Provided further*, That the funds made available for comprehensive school reform shall become available on July 1, 2001, and remain available through September 30, 2002, and in carrying out this initiative, the Secretary and the States shall support only approaches that show the most promise of enabling children to meet challenging State content standards and challenging State student performance standards based on reliable research and effective practices, and include an emphasis on basic academics and parental involvement: *Provided further*, That ~~[\$139,624,000]~~ \$139,853,000 of the funds for section 10101 of the Elementary and Secondary Education Act of 1965 shall be available for the projects and in the amounts specified in the statement of the managers on the conference report accompanying this Act: *Provided further*, That of the funds appropriated under section 10601 of title X of the Elementary and Secondary Education Act of 1965, as amended, \$2,000,000 shall be used to conduct a violence prevention demonstration program: *Provided further*, That of the funds available for section 10601 of title X of the Elementary and Secondary Education Act of 1965, as amended, \$150,000 shall be awarded to the Center for Educational Technologies to complete production and distribution of an effective CD–ROM product that would complement the “We the People: The Citizen and the Constitution” curriculum: *Provided further*, That, of the funds for title VI of Public Law 103–227 and notwithstanding the provisions of section 601(c)(1)(C) of that Act, \$1,200,000 shall be available to the Center for Civic Education to conduct a civic education program with Northern Ireland and the Republic of Ireland and, consistent with the civics and Government activities authorized in section 601(c)(3) of Public Law 103–227, to provide civic education assistance to democracies in developing countries. The term “developing countries” shall have the same meaning as the term “developing country” in the Education for the Deaf Act.

\* \* \* \* \*

TITLE IV—EMERGENCY FISCAL YEAR 2000 SUPPLEMENTAL APPROPRIATIONS

\* \* \* \* \*

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

FEDERAL HOUSING ADMINISTRATION

FHA—GENERAL AND SPECIAL RISK PROGRAM ACCOUNT

For an additional amount for FHA—General and special risk program account for the cost of guaranteed loans, as authorized by sections 238 and 519 of the National Housing Act (12 U.S.C. 1715z-3 and 1735c), including the cost of loan modifications (as that term is defined in section 502 of the Congressional Budget Act of 1974, as amended), \$40,000,000, to remain available until expended: *Provided*, That the entire amount shall be available only to the extent an official budget request, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress: *Provided further*, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act: *Provided further*, That the funding under this heading shall only be made available upon the submission of a certification by the Secretary of Housing and Urban Development to the Committees on Appropriations that all funds committed, expended, or obligated under this heading in the Departments of Veterans Affairs and Housing and Urban Development, Independent Agencies Appropriations Act, 2000 were committed, expended or obligated in compliance with the Antideficiency Act (31 U.S.C. 1341)].

\* \* \* \* \*

APPENDIX D—H.R. 5666

DIVISION B

TITLE I

\* \* \* \* \*

SEC. 144. (a) The Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et. seq.) is amended—

\* \* \* \* \*

(d)(1) The Secretary of Commerce (hereinafter “the Secretary”) shall, after notice and opportunity for public comment, adopt final regulations **[not later than May 1, 2001]** *as soon as practicable* to implement a fishing capacity reduction program for crab fisheries included in the Fishery Management Plan for Commercial King and Tanner Crab Fisheries in the Bering Sea and Aleutian Islands (hereinafter “BSAI crab fisheries”). In implementing the program the Secretary shall—

\* \* \* \* \*

(2)(A) \* \* \*

\* \* \* \* \*

(B) After the date of enactment of this section—

(i) no vessel 60 feet or greater in length overall may participate in any BSAI crab fishery (other than for Norton Sound red king crab or Norton Sound blue king crab) unless such vessel meets the requirements set forth in subparagraphs (A)(i) and (A)(ii) of this **[paragraph]** *paragraph: Provided, That regulations published by the Secretary to implement this section shall provide for replacement vessels and the marriage of fishing history from different vessels, and no vessels shall be prevented from fishing by virtue of this sentence until such regulations are final;* and

\* \* \* \* \*

(3) The fishing capacity reduction program required under this subsection shall be implemented under this subsection and sections 312(b)–(e) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1861a(b)–(e)). Section 312 and the regulations found in Subpart L of Part 600 of title 50, Code of Federal Regulations, shall apply only to the extent such section or regulations are not inconsistent with or made inapplicable by the specific provisions of this subsection. Sections 600.1001, 600.1002, 600.1003, 600.1005, 600.1010(b), 600.1010(d)(1), 600.1011(d), the last sentence of 600.1011(a), and the last sentence of 600.1014(f) of such Subpart shall not apply to the program implemented under this subsection. The program shall be deemed accepted under section 600.1004, and any time period specified in Subpart L that would prevent the Secretary from complying with **[the May 1, 2001 date]** *the direction to issue regulations as soon as practicable* as required by this subsection shall be modified as appropriate to permit compliance **[with that date]**. The referendum required for the pro-

gram under this subsection shall be a post-bidding referendum under section 600.1010 of title 50, Code of Federal Regulations.

\* \* \* \* \*  
(5)(A) \* \* \*

\* \* \* \* \*  
(B) The Secretary shall, after notice and opportunity for public comment, adopt final regulations [not later than May 1, 2001] *as soon as practicable* to prohibit any vessel for which a reduction permit is surrendered and revoked under the fishing capacity reduction program required by this section from engaging in fishing activities on the high seas or under the jurisdiction of any foreign country while operating under the United States flag.

\* \* \* \* \*

**PUBLIC LAW 106-558**

**SEC. 1 \* \* \***

\* \* \* \* \*

**SEC. 2. OVERTIME PAY FOR CERTAIN FIREFIGHTERS.**

(a) \* \* \*

\* \* \* \* \*

[(b) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on the first day of the first applicable pay period beginning on or after the end of the 30-day period beginning on the date of the enactment of this Act, and shall apply only to funds appropriated after the date of the enactment of this Act.]

(b) *EFFECTIVE DATE.*—*The amendments made by this section shall take effect on the date of enactment of this Act.*

\* \* \* \* \*

## BUDGETARY IMPACT

Section 308(a)(1)(A) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344), as amended, requires that the report accompanying a bill providing new budget authority contain a statement detailing how that authority compares with the reports submitted under section 302 of the act for the most recently agreed to concurrent resolution on the budget for the fiscal year. All funds provided in this bill are either offset or are within the remaining limits of the Committee's allocations.

### FIVE-YEAR PROJECTION OF OUTLAYS

In compliance with section 308(a)(1)(C) of the Congressional Budget Act of 1974 (Public Law 93-344), as amended, the following table contains 5-year projections associated with the budget authority provided in the accompanying bill:

	[In millions]	
Budget authority: Fiscal year 2001 .....		\$7,480
Outlays:		
Fiscal year 2001 .....	2,227	
Fiscal year 2002 .....	4,245	
Fiscal year 2003 .....	804	
Fiscal year 2004 .....	97	
Fiscal year 2005 and future years .....	204	

Note: The above table includes both mandatory and discretionary appropriations.

### ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

In accordance with section 308(a)(1)(D) of the Congressional Budget Act of 1974 (Public Law 93-344), as amended, the financial assistance to State and local governments is as follows:

	[In millions]	
New budget authority .....		\$303
Fiscal year 2001 outlays .....		100
