

ADDITIONAL WELLNESS BLOOD SCREENING – 19 MAY 2016

AUDIENCE: CIV / MIL / CSS

Due to the Spring Wellness Blood Screening's overwhelming response, held on 27 April, we coordinated an additional date for those who missed the first screening.

Health One will draw blood for their laboratory tests for civilians, military, contractors and their family members with base access. Each laboratory test has a cost which you will select and pay for at check-in the day of the event. To view a list of available laboratory tests, visit:

How it Works:

- Schedule an appointment online at <https://booknow.appointment-plus.com/dlkknvx/>
- Decide what laboratory test(s) to order (laboratory test options on flyer located at the link above)
- For fasting tests, fast as directed prior to your lab work (see fasting details on flyer)
- On the day of your screening, confirm which test(s) you would like to have performed, complete your paperwork, submit payment, and have blood drawn. Your paperwork and screening will take about 25 minutes
- Lab results will be sent to you by secure email in 1-3 days or mailed to your home
