

NAVAIR will be hosting an ECP for Engineers Course on Tuesday, 8 March 2016, at Frank Knox school, building 2189, from 0800-1600. There are still seats available. This course does not require any prerequisites, and there is no fee.

OBJECTIVE

This course provides a high level overview of Configuration Management (CM) and the Engineering Change Proposal (ECP) Process. At the completion of this one day course students will know how ECPs fit within the DoD acquisition policy framework, the NAVAIR policy for ECPs and the classes and types of ECPs as well as the process for requesting, approving/disapproving and implementing ECPs.

REGISTRATION

To register for the course log on to the NAVAIR University online portal at <https://navairu.navair.navy.mil>. Go to the Classes tab and search for CORE-411-102. You must have created a NAVAIRU account to sign up for classes through the portal.
