

## WEBINAR: GUIDANCE IN WRITING SOLICITATIONS AND

### PROPOSALS WITH FACE REQUIREMENTS, V1.0 AUDIENCE: CIV / MIL / CSS

This webinar is to provide an introduction to the FACE Consortium Contract Guide developed by a multi-service, academia and industry group. The FACE Technical Standard is an open architecture standard and the Contract Guide is designed to assist in the development of and response to a solicitation with FACE requirements. Participants will gain an understanding of the solicitation documents that will be impacted by FACE requirements. This course will present an overview of the recommendations of the following:

- Section C
- Section L
- Section M
- Section H
- Contract Data Requirement Lists
- Technical Specification
- Design Documentation

Target audience includes Program Managers, Contracting Specialists, Legal Subject Matter Experts (SME), Engineering SMEs and other individuals who are involved in the development and evaluation of solicitations for software in DoD programs.
