

ACTION ITEM NO: 1-108

DATE SUBMITTED: 08 JUN 01

SUBMITTED BY: CG SECOND MAW

PROBLEM:

In reference to Configuration Codes VD-05A/06B and VD-07A/08B, where do we put our test equipment that we have to use with the test stand? There are no benches or work spaces near the bench. We will require some type of platform that we can use to put our O'Scope, DVM, Distortion Analyzer and Vibration Monitor Test Set and EA-6B Test Set onto.

DISCUSSION:

These Test Sets take up a lot of space and can't just be sitting on the floor.

RECOMMENDATION:

Provide (2) two or (3) three work benches on casters that we can move out of the way when not in use.
