DATE SUBMITTED: 15 JUN 99

SUBMITTED BY: CG FIRST MAW

PROBLEM:

Mobile Facility (MF) Inventory Database

DISCUSSION:

COMMARCORSSYSCOM, Quantico (C4IIT) DTG 141016Z MAY99 designates computer O/S & authorized software programs, or which LOTUS is being replaced by MICROSOFT OFFICE. 1ST MAW DTG 191739Z MAY99 IS READD. Current MF orders specify the use of LOTUS approach or DBF type database for inventories. While MICROSOFT ACCESS can import DBF databases, G-6 support for such programs will likely cease to exist. TALPS can import a DBF database, but not the MS ACCESS (.MDB File extension) database.

RECOMMENDATION:

1. Adopt MS OFFICE as the standard for MF inventories and reflect change in MF orders and instructions, or submit deviation request to retain LOTUS as the standard for MF Program.
