PROBLEM: When requesting disposition of MFs, newer versions of the same Configurations are being dispositioned.

RECOMMENDATION: When a new MF is received, ensure the newer MF is assigned IAW TBA (USMC) or WSPD (NAVY) and reassign the older MF (of same Configuration) to "EXCESS".
Performing this function will ensure the Unit retains the newer MF if a need arises for NAVAIR to redistribute or disposition "EXCESS" configurations.

STATUS: 05/18/07 Closed. Will brief at LRG.
