

MOBILE FACILITY PROGRAM REVIEW  
ACTION ITEM

ACTION ITEM NO.: 2-187

DATE SUBMITTED: 04/21/08

SUBMITTED BY: MF Program Office

PROBLEM: Lack of MF Program Office oversight/awareness of generator and MMG-1A health and status.

RECOMMENDATION: MFTool provides a location for generator and MMG-1A RFI or NRFI status. Recommend that all MARFORs/Wings (maybe MCO 13670.1) include the mandate for monthly sitsum reports via Naval message.

STATUS: 04/21/08 TOPIC OF DISCUSSION--Monthly report of TQG status RFI/NRFI. Gather MARFOR/TYCOM concurrence.

05/29/08 CLOSED--Will be part of online MFTOOL. Naval message released stating generator reports being pulled and frequency.

ACTION AGENCY: MF Program Office
