

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 2-191

DATE SUBMITTED: 04/13/09

SUBMITTED BY: MALS-13

PROBLEM: MAF History Print/Filing: Currently, the NAMP directs that a current copy of Scheduled/Unscheduled Maintenance Cycle MAF's (PM's, CSC, TD,etc.) be maintained in the LIR/History Jacket. This process is cumbersome and wastes countless manhours that could be better utilized by addressing and correcting actual impact items, as they relate to the MF Program.

RECOMMENDATION: Authorize MF activities with Optimized NALCOMIS to store MAF data and later retrieve any required History as needed or prior to any transfer/temporary loan. As per the NAMP Chapter 10.17.4.4, Note 3, FRC's with Optimized NALCOMIS may store completed MAF data in the NALCOMIS database. Once an activity with this capability transfers MF's/ancillary equipment to another activity, the transferring activity shall produce a NALCOMIS adhoc SE transfer report (Fig. 10.17-7)to file and forward to the receiving activity.

STATUS: Lakehurst is not the cognizant authority. Recommend this request be identified to CNAF. 05/21/09 CNAF is taking for action

ACTION AGENCY: CNAF
