

# MF Program Action Item

Action Item Number: 2011-105 Date Submitted: 04/18/11 Submitted By: MALS-11 MFC / GySgt D.A. Porter

**Problem/Project Description:**

Storage for RFI Pool ECM/ASE Supply Officer Assets and Wing Officer Assets not installed on aircraft. Currently our MALS-11 ECM work center stores over 468 WRAs. 47 of these WRA's weigh 200lbs (ALQ-126B). The ECM W/C stores these WRA's on counter tops in a CASS TPS Support KA-31 MF, Night Vision Support NV-01 MF, and Standard MF ST-01. The storage of these RFI pooled assets could present itself as a safety hazard due to their weight when stored on shelves in NV-01 and ST-01 MFs.

**Recommendation:**

Add KA-31 configured mobile facilities or another type of storage MF designed to store heavy WRAs as a support van for all MALS' ECM work centers.

**Status/Course of Action:** (Funded  Yes  No  N/A)

06/14/11 - If the MARFORs validate this requirement we can make this happen.
