

MF Program Action Item

Action Item Number: 2011-108 **Date Submitted:** 03/21/11 **Submitted By:** MALS-24, K-Bay P-3 / Cpl Costello

Problem/Project Description:

Navy Kaneohe Bay (P-3) TBA does not have a support mobile facility for the Oxygen system components test stand/ part number 62-A-116-E-1. At this time they are utilizing the RR-02, which was designed to support this asset and is being removed from the MALS 24 Marine proposed TBA. The Oxygen system test stand is utilized by the Navy P-3 community and housed in RR-02. MALS-24 Navy Kaneohe Bay does not have a hard site that will be able to support this component.

Recommendation:

Redesign the K-Bay P-3 WSPD to add the RR-02 to MALS-24, Navy Kaneohe Bay TBA. Upon approval of the new Marine TBA we can move the RR-02 from the Marine side to the Navy with out dropping support for the P-3 community.

Status/Course of Action: (Funded Yes No N/A)

Action Agency: MFPO/ CNAF **Assigned To:** Jamie McDonald **Date Assigned:** 05/03/11
