

# MF Program Action Item

Action Item Number: 2011-110 Date Submitted: 05/03/11 Submitted By: 2nd MAW

**Problem/Project Description:**

MF Tool & MF TBA: While working in MF Tool Main screen, Encl (1), you are able to select the desired unit in the left panel and working within the "Inventory" cell you can select various actions you need to perform. Once you press the "Inventory" button you'll be directed to the Inventory Screen, See encl (2). This Screen will show you the current On-hand inventory of a particular Config Code but does not show the total TBA allowance rated by that Unit.

**Recommendation:**

Looking at encl (3), show the total number of Configs rated by the TBA for that Unit, list the MF short in the Serial# column as ShortXX and place in top header next to "item(s)" the word on-hand followed by TBA: (XX) total number rated by MCO 13670.1A

**Status/Course of Action:** (Funded  Yes  No  N/A)

05/17/11 - The Program Office is in the process of the design/ development of a common MFTool database, to be located within the NMCI 'bubble'. Applicable open AIs will be reviewed, and based on requirement, considered for incorporation in this new effort. All MFTool AIs will remain open until completion and fielding of the new database to prevent duplication of effort.
