

MF Program Action Item

Action Item Number: 2011-118 Date Submitted: 04/28/11 Submitted By: MALS-16

Problem/Project Description:

In NA 19-600-152-6-2, cards 10-10.5 introduce a new 182-day PM requirement for the CDTs. NA 19-600-152-6-2 is the MRC deck listing PM requirements for Mobile Facilities. Two separate pieces of support equipment cannot utilize the same MRC deck.

Recommendation:

Create a separate MRC deck for the CDTs, utilizing a generic support equipment Type Equipment Code such as YGAA if the creation of a new TEC is unfeasible.

Status/Course of Action: (Funded Yes No N/A)

06/22/11 - Re-title MRC to include 'Ancillary Equipment'. CDT is not a stand-alone piece of SE, it is a "make item" similar to MF cables shoring gear and cannot be assigned a TEC. LKE also researching the possibility of using a generic TEC.
