

ACTION ITEM NO: 4-11

DATE SUBMITTED: 19 JUL 98

SUBMITTED BY: MALS-31

PROBLEM:

Training.

DISCUSSION:

MOS prerequisite for MF Training. Presently, only Marines that hold the MOS 6073 (GSE) can attend

Environmental Control Unit (ECU) and MMG-1A NAMTRADET COURSES. The Naval Training Program does not allow Marines to attend if they do hold this prerequisite MOS, though empty seats are available. Commands are willing to fund the seats, but the Naval Training Detachments will not allow it.

Work Center 990 does not have established MOS's. The manpower of the work center consists of various MOS's ranging from Avionics to Supply. Due to the large amount of equipment and large turnover of personnel, this prerequisite requirement is impairing the effectiveness of W/C 990.

RECOMMENDATION:

To change the prerequisite and allow any 6XXX MOS to attend the course if seats are available and the Command is willing to fund.
