

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 4-16

DATE SUBMITTED: 04/25/07

SUBMITTED BY: GySgt Houchins, W/C 990, MALS-11

PROBLEM: CSC certifications are obtained by either an on-line course or by attending an instructor lead course in Oklahoma. The problem with the on-line training is that it has no practical application associated with it.

RECOMMENDATION: Recommend NATEC technical representatives become certified CSC instructors and conduct quarterly training courses on all major military installations. This certification is applicable to all intermodal dry cargo containers both civilian and military.

STATUS: 05/18/07 Closed. Resolution posted on web. Action taken with ASL and MFP. Clarification resolved with the appropriate agency. Naval message is [151843ZMAY07](#).

ACTION AGENCY: ASL/Mobile Facilities Program Office
