

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 4-21

DATE SUBMITTED: 04/18/08

SUBMITTED BY: MARFORCOM

PROBLEM: TQG training at the entry level schoolhouses not yet incorporated. NATED training is available as a stop gap, however that is not a substitute for incorporation of TQG training tracks at the schoolhouses. (Additionally, training currently provided by NATEC is limited in scope due to lack of ETool kits)

RECOMMENDATION: Provide status update and projected timeline for establishment of TQG training at the schoolhouses.

STATUS: 04/21/08 ACCEPTED--CNAT has curriculum on TQGs and Loadbanks; out of MF Program Office's hands. Awaiting incorporation into MEP training track. MEP-807A/809A will replace MEP-009/105. TQG E-Tool Kits being pushed to Fleet IAW AI 1-08.
05/29/08 All curriculum at CNATT.
01/29/09 Course expected by mid summer
05/21/09 CLOSED course delayed but expected by late summer/early fall.

ACTION AGENCY: MF Program Office/NAWCADLKE
