ACTION ITEM NO: 5-37 (CONTINUED)

STATUS: 13 FEB 03

Closed. COMNAVAIRSYSCOM Code 3.9.4 has released that AG-360MF-CCD-000 Mobile Facilities (MF) Configuration Manual is no longer an Official NAVAIR Manual. Due to being so far out of date and the cost of producing a hard-copy Manual, the decision was made to cancel the AG-360MF-CCD-000 (MF) Configuration Manual and put the information on the (MF) website; www.mobile-facilities.com. The (MF) Configurations will be in a Work Package Format and added to the website as they are generated. There will be no use of Part Numbers, the Basic Layout and Electrical with a description of the MFs' Function will be provided on the website. For actual Component Descriptions, the (MF) Users should refer to the Plans and Elevation Drawings provided in the Log and Inventory Record (LIR) Book or contact the USMC Liaison at either (MF) Configuration Site for clarification.
