

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 5-40

DATE SUBMITTED: 20 MAY 2004

SUBMITTED BY: MALS-36, W/C 990

PROBLEM: Since the AG360MF-CCD-000 has been cancelled, the MF work centers have had to rely on a half-completed website and MF drawings out of LIR's to order parts. When ordering through NALCOMIS, one must produce a hard reference. A website or random drawing does not suffice, so the next step is to open purchase. To open purchase, one must contact the company, have a price quote faxed, fill out open purchase paperwork, have a sole source justification, and then wait for the paper trail to get approved. Since many of our parts are specific to a certain MF type, they are not listed in the NA 19-25-177.

RECOMMENDATION: Reinstate the configuration code manual.

STATUS: 01 JUN 04

ACTION AGENCY: TBD

STATUS: 17 JUN 04

NEW ACTION CO-AGENCY:

NAWCADLKE 4825/NADEPNI CODE 48730
