

MOBILE FACILITY PROGRAM REVIEW  
ACTION ITEM

ACTION ITEM NO.: 6-52

DATE SUBMITTED: 02/27/09

SUBMITTED BY: MALS-41

**PROBLEM:** MALS 41 currently has two mini trucks (albeit they are in need of dire repair), which are used to assist in the daily operations of work center 990. These mini trucks are part of the squadron's TBA and can be reassigned or receive funding for repaired as the AMO sees fit. Obviously, they are not a priority. The mini trucks are a perfect match for nearly all of 990's day-to-day operations (not suitable for transporting doors or side panels).

**RECOMMENDATION:** MALS 41 recommends a suitable replacement vehicle be assigned to each unit possessing MF's. These vehicles will be used to carry out the daily operations and transportation needs of 990. These vehicles should be accounted for on the MF TOOL inventory and the maintenance and repair of the vehicles will come out of each unit's MF funds. A vehicle of this nature will greatly enhance the overall operational success and squadron support of the MF program.

**STATUS:** 5/21/09 Not a viable option. AI CLOSED.

**ACTION AGENCY:** ASL-34
