

MOBILE FACILITY PROGRAM REVIEW
ACTION ITEM

ACTION ITEM NO.: 8-07

DATE SUBMITTED: 04/27/07

SUBMITTED BY: Sgt Neal, MALS-41

PROBLEM: MALS-41 has a lack of usable space for complexing Mobile Facilities. We are losing approximately 1/4 of our space to the construction of a new hangar for 800 and 900 division. They will supply us with land to utilize, but as it sits it can only be used storage space. The land has a 1 1/2' drop off, is uneven and has neither power output boxes nor grounding points.

RECOMMENDATION: (COA# 1) MALS-41, 4th MAW and MMF Program office work with NAS/JRB NAVFAC to determine appropriate area to accommodate additional areas for MF complexing. (COA# 2) Level the area with new concrete, add power output boxes and grounding points. The grounding points and power boxes will be installed according to the planned complexing of the Mobile Facilities in that area.

STATUS: 05/18/07 Closed. Base facilities/4th MAW issue.

ACTION AGENCY: 4th MAW
