MANUFACTURER CERTIFICATIONS

A. We certify that the information and data contained in this form and our associated test report are accurate and truthful statements concerning the products for which we desire qualification approval

B. We certify that we have tested items and/or supplied items for testing which are representative of our normal production capability. We also certify that our products meet all the requirements listed in all of the applicable specifications.

C. We certify that we have read the provisions outlined the DoD publication SD-6 "Provisions Governing Qualification". We have abided, and will abide by, these provisions at all times while being listed on the government Qualified Products List (QPL).

D. As required by SD-6, we will notify the qualifying activity of any change in our product design, material, or manufacturing process after qualification samples have been submitted or qualification granted. We will also state in our notification to the qualifying activity whether we believe the change will prejudice the capability of the product to meet the qualification test requirements.

E. We accept that the Naval Air Systems Command (NAVAIR) will review test reports and intellectual property related to Navy QPL programs, including information marked proprietary, sensitive, private, confidential, etc. We understand the manufacturer must maintain a copy of their test report on file for 6 years from date of qualification. The copy submitted to NAVAIR will be destroyed upon completion of the project. After NAVAIR performs the testing, the test data sheets and test summary will be destroyed when NAVAIR receives the read receipt from the manufacturer. If a written Non-Disclosure Agreement is required, please contact the QPL Point of Contact at NAVAIR.

CERTIFICATION; INCLUDE SIGNATURES OF TWO COMPANY EMPLOYEES CAPABLE OF ASSURING THE ABOVE PROVISIONS ARE MET.
