Naval Supply Systems Command (NAVSUP)
Booth 1701 / Presentation Schedule

MON, APRIL 4  |  10:00 – 10:45
Doing Business with NAVSUP
Speaker: Chris Espenshade, Director, NAVSUP Office of Small Business Programs
Small business is encouraged to attend a briefing by NAVSUP Small Business Director Mr. Chris Espenshade. Mr. Espenshade will be providing insight into NAVSUP’s global logistics mission, its unique contracting authority and how companies can best position themselves to support NAVSUP/DON requirements. This briefing will cover; service and supply contracting discussion points, how to best engage NAVSUP and specific manufacturing capabilities the Navy is seeking to further expand for weapon system support.

MON, APRIL 4  |  11:00 – 11:45
Navy Uniform & Organizational Clothing-Mission, Function, & Capability Gaps
Speaker: Laurra Winters, Director, Navy Clothing & Textile Research Facility
Ms. Laurra Winters will be discussing the Navy Clothing & Textile Research Facility and “how” it operates within the Navy Uniform Organization as well its mission, functions, and tasks. The briefing will also provide a historical overview and successes within NAVSUP Research & Development and address capability gaps for further research efforts.

MON, APRIL 4  |  2:00 – 2:45

They will be providing insight into NAVSUP’s overall analytic mission, strategic partners, and key initiatives that support wholesale and retail operations.
The Program Executive Office for Tactical Aircraft Programs (PEO (T)) provides full life-cycle support of naval aviation aircraft, weapons and systems operated by Sailors and Marines. This support includes research, design, development and systems engineering; acquisition; test and evaluation; repair and modification; and in-service engineering and logistics support. PEO (T) comprises a senior staff and 10 program offices.

The Small Tactical Unmanned Air Systems Program Manager will discuss current and future capabilities for the Navy and Marine Corps’ Group 1-3 UAS.

Mr. Shelby Butler began his professional career at NASA’s Kennedy Space Center, FL, where he worked with Radioisotope Thermoelectric Generators for the Ulysses and Galileo Spacecraft missions that explored the Sun and Jupiter, respectively. He also developed procedures and performed underwater training for the astronauts’ Extra-Vehicular Activities on the Hubble Space Telescope repair missions.

Mr. Butler rejoined the Department of the Navy and later became the Director of Acquisition for Rapid Response & Irregular Warfare, leading the effort aimed at the award of a $5 Billion Multiple Award Indefinite Delivery Indefinite Quantity (MAIDIQ), multi-platform procurement vehicle for NAVAIR. He also served as a Technical Director for NAVAIR, prior to becoming the Director of the Office of Small Business Programs.
Naval Air Systems Command (NAVAIR)
Booth 947 / Presentation Schedule

TUES, APRIL 5 | 09:30 - 10:10
NAVAIR’s NavalX Tech Bridge efforts (Live Stream)
Speaker: Mrs. Diana Teel, Program Manager Industry Outreach

During her brief, Ms. Teel will discuss the NavalX Tech Bridge efforts and successes from her perspective as director of the Central Florida Tech Bridge in Orlando, Florida. Rick will cover the Southern Maryland Tech Bridge initiatives, together they will share their perspective on NavalX, collaboration between Tech Bridges and how they are helping to “bridge” the Valley of Death.

TUES, APRIL 5 | 11:00 - 11:40
Training Systems Update
Speaker: CAPT Dan Covelli, Commanding Officer, Naval Air Warfare Center Training Systems Division (NAWCTSD) and Naval Support Activity (NSA), Orlando

During his briefing, CAPT Covelli will discuss how NAWCTSD collaborates with government, industry, and academia members of “Team Orlando” as the command procures training systems for Naval Aviation, Surface, Undersea, Cross Warfare, Ready Relevant Learning and International programs.

TUES, APRIL 5 | 13:30 - 14:00
NAWCWD Overview
Speaker: Mr. Dan Carreño, Executive Director for Naval Air Warfare Center Weapons Division

Dan Carreño, SES, is the executive director of Naval Air Warfare Center Weapons Division, leading a military-civilian organization of nearly 6,000. He has more than 30 years of experience in weapons research, development, test and evaluation and holds a Bachelor of Science in Aerospace Engineering from the University of Tennessee.

TUES, APRIL 5 | 14:15 - 15:15
NAVAIR – One Team One Fight
Speaker: VADM Carl Chebi, Commander, NAVAIR
Panel Discussion including: RADM John Lemmon, RDML Joseph Hornbuckle, Mr. Dan Carreño and Mr. Tom Rudowsky

Delivering the warfighting capability the Fleet needs to win, at a cost we can afford.

TUES, APRIL 5 | 15:30 - 14:00
Air Traffic Management Today, Tomorrow and Beyond
Speaker: CAPT Kevin Watkins, Program Manager, Naval Air Traffic Management Systems

CAPT Watkins has accumulated over 2,200 flight hours and 160 carrier-arrested landings in multiple tactical aircraft. His personal decorations include the Defense Meritorious Service Medal, two Meritorious Service Medals, three Air Medals (strike/flight awards), four Navy Commendation Medal (one with combat “V”), and various other personal, campaign and unit awards.
WED, APRIL 6  |  9:30 - 10:10
NAWCAD Overview/AIRWorks/RPED (Live Stream)
Speaker: Mr. Jerry Swift, Director, AIRWorks, Naval Air Warfare Center Aircraft Division
NAWCAD provides talent, tools, and technologies in support of Naval Aviation and our Warfighters. AIRWorks is NAWCAD’s office focused on rapidly and effectively delivering warfighter capability to meet immediate and emergent warfighter needs by integrating talent, organic capability, industrial partnerships, and emerging technologies. Please join NAWCAD Commander Rear Adm. John Lemmon and NAWCAD AIRWorks Director Jerry Swift for an overview of the capabilities, technologies, and projects we bring to the fleet.

WED, APRIL 6  |  11:00 - 11:40
Operationalizing Additive Manufacturing for Naval Aviation (Live Stream)
Speaker: Mr. Theodore Gronda, NAVAIR Additive Manufacturing Program Manager
Additive Manufacturing (AM) is the ability to “print” replacement parts at the point-of-need rapidly. The NAVAIR Additive Manufacturing Team (AMT) is responsible for coordinating with all AM stakeholders and integrated product teams in the development and execution of engineering, product support, contracting and procurement management strategies that support 3D printing hardware acquisition and sustainment for equipment and services used to produce approved AM parts. Mr. Theodore Gronda, who heads this team, will discuss how AM enables increased readiness, sustainment of weapons systems and enhances warfighter capabilities. His presentation will also cover recent fleet achievements and naval aviation’s next steps in AM.
